Student Affairs

WELCOME

I'm honored to share the Division of Student Affairs annual report for 2022-2023, which provides a brief overview of the activity and positive impact of the Division. As the University of North Alabama has experienced record enrollment growth for 15 consecutive semesters, our retention and graduation rates continue to rise as well. 2022-2023 was an exciting year as we were officially welcomed as an NCAA Division I Athletic program.

The departments that comprise the Division of Student Affairs are essential not only to students' achievement but also to their overall health and well-being. As we uphold the aspirations of a health promoting university, we embrace the mission of UNA to be innovative, inclusive, engaged, evolving, and global with our offerings and our impact. The departmental leaders within the Division of Student Affairs are exploring ways to enhance UNA's supportive campus environments, generate thriving communities and a culture of well-being; support personal development; embed health into all aspects of campus culture, across the administration; and create or re-orient campus services.

Our staff has remained unwavering in their commitment to serving students, and the highlights in the pages that follow demonstrate some of the success of our work. While we are proud of all we accomplished in the past year, we are committed to excellence and seek ways to enhance relationships throughout the campus community and the Shoals.

As we celebrate a job well done, I know that the best for UNA students is yet to come! Thank you for the privilege to serve alongside you.

Roar Lions! *K.C. White*

FRATERNITY & SORORITY LIFE

Fraternity and Sorority Life has undergone organizational changes with an inaugural Director of Fraternity and Sorority Life and becoming its own entity within the Student Engagement portfolio. Organization, structure, and clear communication have been the goals of FSL this year, which are also the genesis for forthcoming changes in event policies and practices.

Programming for this academic year focused on career building, hazing prevention, and sexual assault awareness, all of which are extremely relevant topics for today's student population. Additionally, this year marks the 50th anniversary of Fraternity and Sorority Life at UNA. This provides an opportunity to establish strong lines of communication with alumni across the country in hopes of establishing stronger connections within the UNA Greek Alumni network.

16 student leaders attended the Southeastern Greek Leadership Association conference in Atlanta, GA, February 9-11. (photo above)

Gunn, Kiana Joseph, Bobby Joe Pride, Ernestine Davis, and the enslaved individuals that were instrumental in building LaGrange College.

- **Pop-Up Advising:** Housing & Residence Life partnered with the University Success Center each semester to offer advising within the residential areas. This allowed students to seek resources in their area of comfort at times of day that were outside normal operating hours. This was a very successful academic initiative that we look forward to developing further.

MILITARY & VETERAN SERVICE CENTER

As of January 3, 2023, the Veterans Affairs School Certifying Officer role transitioned from the Military & Veteran Service Center office to the Office of the Registrar. This transition allows all of the departments that directly support enrollment, financial aid, and student accounts to be under the same portfolio. An added benefit is that veterans and their dependents may now access early course registration. The Division of Student Affairs continues to support the Military & Veteran Service Center programmatically as well as in working with the Student Veterans of America registered student organization.
