

UNIVERSITY OF NORTH ALABAMA
Non-resident Tuition Policy

Introduction

All students registering at the University of North Alabama, who do not establish that they are resident students shall be classed as non-resident students at the time of their initial registration and shall continue as non-resident students through all subsequent registrations at this institution until satisfactory evidence to the contrary is submitted at the time of any subsequent registration. In the context of this policy, the classifications, resident student and non-resident student exist for the purpose of the policy within institutions of higher education in the State of Alabama and do not have any completely parallel significances to the term "resident" as used in certain legal considerations for relationships in the various governmental entities. Consequently, a person may satisfy certain legal conditions for residence in one of more of the governmental entities, city, court, state, federal, or other, and fail to meet conditions for classification as a resident student for the purpose of tuition payment at the University of North Alabama.

In determining resident or non-resident classification, the primary issue is one of intent. **If a person is in Alabama primarily for the purpose of obtaining an education, that person shall be considered a non-resident student.**

A "resident student" is one who, at the time of registration:

- A. Is not a "minor" and: a) is a full-time permanent employee of the institution at which the student is registering or is the spouse of such an employee; b) can verify full-time permanent employment within the State of Alabama or is the spouse of such an employee and will commence said employment within 90 days of registration with the institution; c) is a member or is the spouse of a member of the United States military on full-time active duty stationed in Alabama under orders for duties other than attending school; d) is employed as a graduate assistant or fellow by the institution at which the student is registering; or e) is an accredited member of or the spouse of an accredited member of a consular staff assigned to duties in Alabama.
- B. Is a "minor" and whose supporting person: a) is a full-time permanent employee of the institution at which the student is registering; b) can verify full-time permanent employment within the State of Alabama and will commence said employment within 90 days of registration with the institution; c) is a member of the United States military on full-time active duty stationed in Alabama under orders for duties other than attending school; or d) is an accredited member of a consular staff assigned to duties in Alabama.

Definitions

- A. "Minor" – An individual who, because of age, lacks the capacity to contract under Alabama law. Under current law, this means a single individual under 19 years of age and a married individual under 18 years of age, but excludes an individual whose disabilities of non-age have been removed by a court of competent jurisdiction for a reason other than establishing a legal residence in Alabama.
- B. "Supporting person" – Either or both of the parents of the student, if the parents are living together, or if the parents are divorced or living separately, then either the parent having legal custody or, if different, the parent providing the greater amount of financial support. If both parents are deceased or if neither has legal custody, supporting person shall mean, in the following order: the legal custodian of the student, the guardian, and the conservator.
- C. "Resident" – One whose residence is in the State of Alabama.
- D. "Residence" – The single location at which a person resides with the intent of remaining in that location indefinitely as evidenced by more substantial connections with that place than with any other place.
