**All Montgomery  
Fees Due Today**

Dear Parents,

As we move into learning more about the Civil Rights Movement and its impact on Alabama History, it is a golden opportunity to have students talk with relatives, neighbors, or friends of the family who may have first hand experiences to share. It may also be somewhat disconcerting to nine and ten year olds in their first exposure as to what life used to be like some fifty to sixty years ago. History is not always a pretty picture, however, we will be accentuating the positives of the great changes that have come about and how our lives have benefited by the Civil Rights Movement. Most of what we are studying is directly connected to our upcoming Montgomery trip. Our class is extremely fortunate to be able to visit places that are the center of so much history. Sincerely, Mrs. Mary Summy
