7. **Research**

Longitudinal Study Research

Technology: Beginning the 2005-06 school year, I began participation in the Kilby Laboratory Laptop Initiative with approval of the UNA Human Subjects Committee. The purpose of this research is to obtain information from teachers and students concerning the use of laptop computers in the classroom. The information obtained will be used to discover if daily access to lap top computers changes student attitudes to computer use, improves student level of ability to use computers, and affects on student achievement. This study continues during the 2007-2008 school year.

8. **Professional Development**
