

Collier Library Gains Funds For New Equipment

According to Miss Ruth Dacus, head librarian of Collier Library, the Florence State College library has been included among 162 colleges who have received grants of funds for equipment by the Association of Colleges and Research Libraries.

Florence State has been awarded a Mark VII Microcard Reader and a number of publications. The total value of the "package" will be approximately \$1,000.

Florence was selected by the committee from over 300 applications in addition to a list of 247 institutions eligible for the Microcard Foundation awards.

Miss Dacus said, "We are very pleased upon receiving the award and are looking forward to making additions to the microcard holdings of the library. Florence State is very fortunate to have been chosen for such an award. The Mark VII Microcard Reader will be placed on the second floor of the library for use."
