## ***Miss Schmitt Joins Faculty to Provide Library Work Minor***

A minor in library science will be added to the college curriculum in the Spring quarter.

Miss Fannie Schmitt, for the past nine and a half years School Library Consultant of the State Department of Education, will join the college faculty to institute the program.

Emphasis in the library science academic offerings will be on preparing teacher-librarians for the schools of the area, but students will be prepared to enter graduate schools of library science with full credit.

Miss Schmitt will offer three courses in the Spring quarter: Books and Related Material for Children and Young People (201), Organization and Administration of School Library Service (341), and The Library in the School (241).

The associate professor will also be available as a consultant for in-service librarians and student teachers.

A nationally recognized leader in library service, Miss Schmitt will bring to the college extensive training and experience in her field: she received the B.S. and M.A. degrees at the University of Alabama and the Certificate in Library
