2009-10: 12
2008-09: 19
2007-08: 21

## Section II. Annual Goals

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative routes to state certification or licensure program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students. IHEs that do not have a teacher preparation program in one or more of the areas listed below can enter NA for the area(s) in which the IHE does not have that program.

| Teacher shortage area | Goal for increasing prospective teachers trained |

## Section II. Assurances

Please indicate whether your institution is in compliance with the following assurances.
Training provided to prospective teachers responds to the identified needs of the local educational agencies or States where the institution's graduates are likely to teach, based on past hiring and recruitment trends.
Yes

Training provided to prospective teachers is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.
Yes

Prospective special education teachers receive coursework in core academic subjects and receive training in providing instruction in core academic subjects.
Yes
General education teachers receive training in providing instruction to children with disabilities. Yes

General education teachers receive training in providing instruction to limited English proficient students.
Yes

General education teachers receive training in providing instruction to children from low-income families.
Yes

Prospective teachers receive training on how to effectively teach in urban and rural schools, as applicable.
Yes

Describe your institution's most successful strategies in meeting the assurances listed above:
The teacher education programs are built around sequenced curricula that meet state and national teaching and learning standards. Curricula are constantly updated based on data from both teacher and administrator surveys and course assessments. Clinical placements assure that all prospective teachers have experiences in urban and rural schools with instruction to students of all diversity categories including socioeconomic backgrounds and disabilities.

## Section IV. Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program.

Is your teacher preparation program currently approved or accredited?
Yes
If yes, please specify the organization(s) that approved or accredited your program:
State
NCATE
Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?
No

## Section V. Technology

Does your program prepare teachers to:

- integrate technology effectively into curricula and instruction Yes
- use technology effectively to collect data to improve teaching and learning Yes
- use technology effectively to manage data to improve teaching and learning Yes
- use technology effectively to analyze data to improve teaching and learning Yes

Provide a description of how your program prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of how your program prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

All prospective teachers receive instruction in the use of technology for instruction for assessment and record keeping through a planned technology course. In subsequent coursework and all clinical experiences candidates, through required assignments, projects, and instruction, use technology to teach and assess in K-12 settings. An electronic portfolio maintained by all teacher education candidates includes documents that reflect the use of technology for teaching and learning. Candidates use LiveText, a web-based tool, to assist them in developing, assessing, and measuring student learning to assure continuous improvement in teaching and student achievement.

## Section VI. Teacher Training

Does your program prepare general education teachers to:

- teach students with disabilities effectively

Yes

- participate as a member of individualized education program teams

Yes

- teach students who are limited English proficient effectively

Yes

Provide a description of how your program prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

All initial candidates complete Survey of Students with Disabilities, which is a 3 hour course focused on the definitions, causes, characteristics and programs for students with cognitive, behavioral, social, and physical disabilities. They also take both undergraduate prerequisite courses and graduate courses that require them to develop lessons that include accomodations for diverse populations.

All teacher candidates take courses which have components that focus on working with culturally and linguistically diverse students. These courses have the teacher candidates create activities and lesson plans where the needs of English language learners are met. The two primary courses for this are Materials and Methods of High School Teaching and Principles of High School Education. Candidates also take Psychology of Learning and Teaching of Reading, which have components that specifically discuss the needs of culturally and linguistically diverse students.

Does your program prepare special education teachers to:

- teach students with disabilities effectively NA
- participate as a member of individualized education program teams NA
- teach students who are limited English proficient effectively NA

Provide a description of how your program prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

We do not offer a special education program in Alt A.

## Section VII. Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card. The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.
