Please note this feature may not work in Safari. We recommend using either Google Chrome or Mozilla Firefox to download your Kaltura videos.

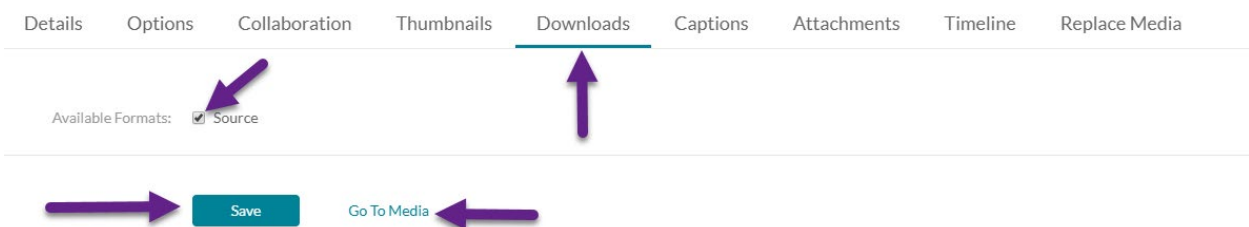

1. Click on the “My Media” link in any course to access your Kaltura videos.

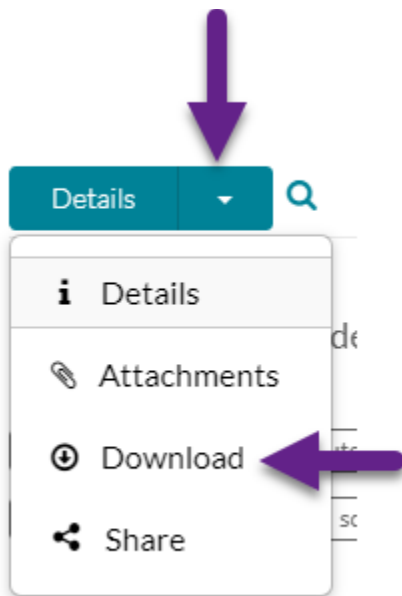

2. In My Media, click on the edit icon (pencil icon) for the video you want to download.

3. Scroll down and click on the “Downloads” tab to see the available formats for your video. We recommend selecting the “Source” format, as it will be the original format of the video. After selecting the format, click on the “Save” button and then click on “Go To Media.”

5. Click on the download icon under the “Actions” column to begin downloading your file.
