$125.00 (Regular fees – payment after 16<sup>th</sup> September 2015)

$100.00 (Early bird – payment by 16<sup>th</sup> September 2015)

This workshop is appropriate for classroom teachers, PE teachers, PTs, OTs, Brain Gym, Speech Therapists, Parents and Students!

**Bal-A-Vis-X** is a series of increasingly complex Balance/Auditory/Vision/exercises, deeply rooted in rhythm, that require full-body coordination and focused attention.

Requiring multiple thousands of mid-line crossings in three dimensions, these exercises are rhythmic, with a pronounced auditory foundation, executed at a pace that naturally results from proper physical techniques. These exercises can also be modified for those with severe special needs. The program uses sand-filled bags, racquetballs and balance boards. In group settings the program demands cooperation, promotes self-challenge, and fosters collaboration. And it is fun!
**Bal-A-Vis-X**, used by educators, clinicians and therapists worldwide, is designed to benefit every student - improving coordination and academic success and is particularly effective for students who may be considered:

- Learning challenged - cognitive integration improves
- Behaviourally challenged – behavior “settles”
- ADD / ADHD – impulsivity decreases and attention span increases
- Gifted – physical coordination improves and stress headaches diminish
- Regular – academic success improves yet requires less effort

**Bal-A-Vis-X** benefits students with auditory processing difficulties that may affect word pronunciation, comprehension of verbal instructions, or participation in dialogue and discussions. For these students, the rhythmic patterns of Bal-A-Vis-X create a new awareness of the nuances of sound.

**Bal-A-Vis-X** benefits students who have difficulty with visual processing, ocular motility (tracking), binocularity (teaming) or visual form perception (discrimination of details).

For all students, the gains in eye-hand coordination and subsequent growth in overall confidence, hence, self-esteem, are readily observable.

**About the Trainer**

**Bill Hubert** has taught Kindergarten through University for 35 years and has been developing and perfecting BAVX over the last 30 years. Since 1999, Mr. Hubert and his assistants have conducted more than 400 trainings around the world. He currently works with children (ages 4-23) in private 30-minute sessions each week in Wichita, Kansas.
