Faculty, Staff & Student Guide for Connecting iOS devices to Campus Wireless

1. In Settings, make sure Wi-Fi is turned ON.

2. Select the ! beside the **UNA Start Here** network.
3. Select the radio button to turn off Private Wi-Fi Address.

4. Select Join This Network
5. When your device shows connected to UNA Start Here, open a web browser and attempt to browse to any website.

6. The following screen should appear. Select **Employee/Student**.
7. Enter your UNAPortal User ID (without the @una.edu) and Password and select Join Now.
8. Select **Allow**.
9. Click **Close**.
10. Select **Profile Downloaded**.
11. Click **Install**.
12. If prompted, enter your **Unlock Passcode**.
13. On the Certificate Warning page, select **Install**.
14. Select **Done**.
15. At this point, most users will be connected to UNA WiFi.

16. Depending on your iOS version, you may need to follow the on-screen instructions to complete the connection.

After configuring your iOS device, you may still need to connect to the "UNA WiFi" network:

To connect:

1. Go to the Home screen of your iOS device (press the "Home" button).
2. Tap the "Settings" icon.
3. Tap "Wi-Fi".
4. Make sure Wi-Fi is turned "On"
5. Select the "UNA WiFi" network from the list of available networks.

When you have successfully connected, a small check mark will appear next to the "UNA WiFi" network.
