     M. Faculty Evaluation

IV. Disciplinary/Grievance Policies

V. Graduation Preparation
   A. Anderson College of Nursing and Health Professions Pin
   B. Employment References

Appendices:
   Student Needlestick/Body Fluid Exposure Protocol
   TB Protocol
   Incident Report
   Weapons on Campus Policy
   Influenza Vaccination Consent/Declination Form
I. GENERAL INFORMATION

A. Introduction
The faculty of the University of North Alabama (UNA) Anderson College of Nursing and Health Professions (ACONHP) congratulates you on your acceptance into the graduate nursing course of study. There are many planned worthwhile learning experiences to enable you to become an experienced professional nurse who can function at an advanced level in the health care society. This course of nursing study is entirely online.

The policies in this Graduate Student Handbook are supplemental to the University’s Graduate Catalog. These ACONHP policies are to help you progress through the program. This handbook is provided as information only and should not be construed as a contract between you and the ACONHP or the University of North Alabama. The UNA and the ACONHP reserve the right to make changes in this handbook as deemed appropriate.

Both the graduate and the undergraduate programs of the ACONHP are accredited by the Commission on Collegiate Nursing Education (CCNE) and approved by the Alabama Board of Nursing (ABN). Web sites are available for both of these organizations (http://www.abn.state.al.us/; http://www.aacn.nche.edu/ccne-accreditation).

B. Accommodation Assistance for Students with Disabilities
In accordance with the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973, the University offers reasonable accommodations to students with eligible documented learning, physical and/or psychological disabilities. Under Title II of the Americans with Disabilities Act (ADA) of 1990, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Amendment Act of 2008, a disability is defined as a physical or mental impairment that substantially limits one or more major life activities as compared to an average person in the population. It is the responsibility of the student to contact Disability Support Services to initiate the process to develop an accommodation plan. This accommodation plan will not be applied retroactively. Appropriate, reasonable accommodations will be made to allow each student to meet course requirements, but no fundamental or substantial alteration of academic standards will be made. Students needing assistance should contact Disability Support Services (256-765-4214).

C. Title IX Discriminatory Harassment
The University of North Alabama has an expectation of mutual respect. Students, staff, administrators, and faculty are entitled to a working environment and educational environment free of discriminatory harassment. This includes sexual violence, sexual harassment, domestic and intimate partner violence, and stalking, gender-based discrimination, discrimination against pregnant and parenting students, and gender-based bullying and hazing.

Faculty and staff are required by federal law to report any observations of harassment (including online harassment) as well as any notice given by students or colleagues of any of the behaviors noted above. Retaliation against any person who reports discrimination or harassment is also prohibited. UNA’s policies and regulations covering discrimination and harassment may be accessed at www.una.edu/titleix. If you have experienced or observed...
discrimination or harassment, confidential reporting resources can be found on the website or you may make a formal complaint by contacting the Title IX Coordinator at 256-765-4223.

D. Vision, Mission, Goals, and Outcomes

Vision & Mission

The ACONHP vision is to improve health in the community by effecting change in systems and policies, and to promote research and scholarly activities that advance nursing and health care knowledge. The ACONHP mission is to graduate nurses and other health professionals who are prepared to assume professional roles in diverse health care environments.

The MSN program has two overarching objectives. The fulfillment of these objectives will provide a positive impact on the well-being and health of the society:

1. education of nurses in advanced teaching methodologies to provide the tools necessary to facilitate the education of nursing students, health care clients, and health care colleagues;
2. preparation of nurses who will function at an advanced level in the health care environment with regards to politics and legislation, budgeting and economics, leadership and management, such that they may positively impact the management aspects of nursing and health care in society.

Graduate Program Crosswalk

Program Competencies, Goals, and Student Outcomes: UNA/MSN Curriculum Map

University Core Competencies (UCC)

UCC 1. Information Literacy
UCC 2. Critical Thinking
UCC 3. Effective Communication
UCC 4. Scientific Literacy
UCC 5. Aesthetic Awareness
UCC 6. Cross-cultural and Global Perspective
UCC 7. Informed Citizenship

MSN Essentials (E)

E 1. Background for Practice from Sciences and Humanities
E 2. Organization and Systems Leadership
E 3. Quality Improvement and Safety
E 4. Translating and Integrating Scholarship into Practice
E 5. Informatics and Healthcare Technologies
E 6. Health Policy and Advocacy
E 7. Interprofessional Collaboration or Improving Patient and Population Health Outcomes
E 8. Clinical Prevention and Population Health for Improving Health
E 9. Master’s-Level Nursing Practice

Anderson College of Nursing and Health Professions Program Goals (ACONHP)

ACONHP 1. Provide high quality, innovative educational nursing and health related programs
ACONHP 2. To build and maintain a student-centered nursing and health related programs
ACONHP 3. Provide a culturally diverse environment for students, faculty, and staff
ACONHP 4. Develop partnerships with community agencies to expand healthcare to the community
ACONHP 5. Promote research and scholarly activities that advance nursing and health care knowledge
Graduate Program Goals (GP)
GP 1. Offer a high quality MSN program
GP 2. Graduate nurses and other health professionals who are prepared to practice in global healthcare environments
GP 3. Promote a culturally diverse learning environment designed to eliminate barriers to learning
GP 4. Develop and nurture a strong relationship with community health facilities and health professionals
GP 5. Foster scholarly activities, research, teaching, service, and practice that advance the knowledge base of nursing and other health care professions

Graduate Student Outcomes (GSO)
1. Demonstrate knowledge, competencies, and skills in advanced nursing practice, teaching, and/or leadership. (UCC 1, 2, 3, 4, 6; E 1-9; ACONHP Goal 1, 2, 4, 5; GP 1, 2, 4, 5)
2. Serve as a leader and change agent in nursing and health care delivery systems to ensure quality care across the lifespan. (UCC 1,2,3,4,7; E 3, 7,8; ACONHP Goal 3,4,5; GP 3,4,5)
3. Utilize ethical decision-making, technology, and communication skills to provide culturally competent care. (UCC 1, 2, 3, 4, 6, 7; E 2, 5, 6; ACONHP Goal 3, 5; GP 1, 2, 3, 5)
4. Effectively practice advanced nursing roles in collaborative relationships across diverse disciplines to improve patient and population health outcomes. (UCC 1, 2, 3, 4, 6; E 2,7,8, 9,10; ACONHP 1, 2, 3, 4; GP 1, 2, 3, 4)
5. Synthesize nursing knowledge through translation, integration, and application of evidence-based practice. (UCC 1, 2, 3, 4, 6, 7; E 1, 3, 4, 6, 9; ACONHP Goal 5; GP 2, 5)

F. Degree and Program Plans

The Master of Science in Nursing degree has two tracks or options, Teaching-Learning Environments and Nursing Leadership in Organizational Environments. Each of these tracks requires 32 hours of credit for completion. The curriculum consists of 15 hours of core courses for students in both options (see below). There are 17 additional hours of courses specific to each option.

Students may transfer a maximum of six hours from another university (See “Transfer Credits”).

The UNA ACONHP Master of Science in Nursing degree builds on the preparation of students at the BSN level with the following assumptions:
• students have experience in professional nursing practice
• students have background knowledge of nursing theory and research
• students understand and use the nursing process
• students are able to communicate effectively
• students are involved in professional activities
• students have leadership abilities
• students can use technology effectively

The concept of communication is expanded to include participation in the leadership/instructor/researcher role. The concept of functioning as a “professional” is expanded to functioning in management/leadership/executive roles. The concept of research is expanded from the knowledge level to the analysis and performance levels. The concept of collaboration with members of the health team is expanded to the role of collaboration with academic, legislative and economic officials, as well as leaders in other disciplines.

All courses are asynchronous online courses. There are two practicum courses in each track, consisting of 90 hours each for a total of 180 practicum hours.

II. BEGINNING THE PROGRAM

Graduate students receive initial advisement from the Coordinator for Graduate Programs Nursing Enrollment. After this initial advisement, MSN faculty members provide student advisement.
Once admitted to the MSN program students may enroll in non-practicum courses as scheduled. However, MSN students must meet the following requirements before enrolling in the practicum courses (NU680, NU681, NU682, NU683). All health and practice information must be received by the Graduate Programs Nursing Office eight (8) weeks prior to enrolling in practicum courses.

A. Health Information

1. Results of a recent (within one year) physical exam. A physical examination must be completed by a physician or a nurse practitioner. THE COMPLETED HEALTH FORM MUST BE MAILED DIRECTLY BY THE HEALTH CARE PROVIDER OR EMPLOYER TO THE GRADUATE PROGRAMS OFFICE.

2. *Evidence of hepatitis immunization. All students are strongly encouraged to become vaccinated against the Hepatitis B virus. Dates of the Hepatitis B series and/or Hepatitis B titer must be provided on the health form. Students who do not wish to take the vaccine must sign a declination form, which may be obtained from the Administrative Secretary.

3. *Evidence of other immunizations. Students must have proof of measles, mumps, and rubella (MMR), and varicella immunization or provide a signed declination form. Proof should either be a copy of the actual immunization date(s) or copy of titer results signed by authorized individuals. Some agencies also require flu vaccines for students and employees.

4. Tuberculosis skin test. Students must have a tuberculosis skin test each year. If a TB skin test is positive for the first time, the student will be referred to the local health department. UNA will follow the health department’s policy on the referral, diagnosis, and treatment of tuberculosis. Under no circumstances will a student with a positive TB skin test be allowed to attend clinical rotations until documentation is received from the health department.

If a student has a past history of a positive skin test for tuberculosis, he/she should report annually to the local health department for a symptom assessment and sputum culture or chest x-ray (CXR). A chest x-ray may be recommended for a student with a positive PPD, according to symptoms. Under no circumstances will a student with a positive TB skin test be allowed to attend clinical rotations.

5. Health Insurance. Students must have health insurance coverage. Any expenses incurred as a result of injury or illness occurring during clinical experiences will be the sole responsibility of the student.

6. Recent influenza vaccine.

*Please note that declining immunizations may result in a health care agency’s refusal to allow one to complete practicum experiences at the agency.

*Flu shot refusal requires UNA students to wear a mask during all practicum experiences.

B. Practicum Information

1. Evidence of an unencumbered license to practice in the state of intended practicum experience - Acceptance into the MSN Nursing program requires verification of a current RN license. The student must upload a copy of their current nursing license into the document management system. The ACONHP will then obtain verification of the student’s licensure status
from each student's State Board of Nursing. To register for a clinical practicum, the students **must be licensed** by the state in which clinical practicum is to be completed.

2. **BLS/CPR certification for health care providers** - All students must have current instruction or certification in cardiopulmonary resuscitation and show evidence of dates of coverage. A copy of the card must be uploaded into the document management system.

3. **Professional Liability insurance ($1,000,000.00/$6,000,000.00)** for practice as an RN who is also a student is required of each student admitted to the MSN program. Having professional liability insurance does not always mean one has liability coverage as a student. Make sure your professional liability insurance provides a rider for student coverage. If you do not have professional liability insurance, may purchase it at [http://www.nso.com/](http://www.nso.com/).

4. **Notarized felony affidavit** – The form for this affidavit is available from the Graduate Programs Nursing Office. An original notarized form must be on file in the Graduate Programs Office. **Please note that certain facilities may require criminal background checks, drug screening, and other items prior to practicum experiences. The student is responsible for complying with all requirements of the facility.**

5. **OSHA and HIPAA education** – MSN students must provide evidence of recent education on Occupational Safety and Health Administration (OSHA) guidelines and the Health Insurance Portability and Accountability Act (HIPAA) standards.

**C. Books**

Students must have access to required course materials. Each course syllabus will indicate the required materials. Books may be obtained from the UNA Bookstore (1-800-TALK-UNA, Ext. 4642, [http://www.bkstr.com/CategoryDisplay/10001-9604-151906-1](http://www.bkstr.com/CategoryDisplay/10001-9604-151906-1) or the Off Campus Bookstore (256-764-7507). You may also purchase books from other vendors, such as Amazon.com and Barnes and Nobles.

**D. Supplies and Expenses**

Students must have Microsoft Office on their computers. Only Microsoft Office documents (Word, PowerPoint, Excel, etc.) are acceptable for assignment submissions. It is advisable to purchase and install these before beginning the program. Student versions of Microsoft Office are usually available for a reduced price. UNA Students can install Office for free. Follow this link: [http://www.una.edu/its/Office365Advantage/studentsFreeOffice.html](http://www.una.edu/its/Office365Advantage/studentsFreeOffice.html). Clinical supplies will vary according to the practicum experience. MSN students are responsible for purchasing supplies needed for clinical practicum.

**E. Dress Code Policies**

The nursing student's appearance is very important because it communicates self-image and a personal attitude towards the nursing profession. It is essential that the values of neatness, cleanliness, and professionalism are evident. The student must abide by the dress code policies of the clinical practicum agency. The student is responsible for obtaining the agency’s dress code policy. When deemed appropriate by the agency, a student may wear a white lab coat/jacket and professional street clothes. The student is to always wear a name pin during practicum experiences. Student badges are sent to students in practicum courses identifying the student as a UNA MSN student. The purchase of the lab coat/jacket and name pin is solely the responsibility of the student. The nursing student's appearance is very important because it communicates self-image and attitude toward the profession. Violation of the dress code may result in an automatic clinical unsatisfactory.
F. Exposure to Blood-borne Pathogens

All MSN students must abide by the clinical agency’s policies for standard precautions when practicum experiences require patient contact. Students must wear personal protective equipment (gloves, masks, goggles, gowns) when exposed to body fluids. The MSN student is responsible for using the personal protective devices as needed. If an “incident of exposure” occurs, the MSN student should fill out the incident report form utilized by the facility and fax a copy to the UNA ACONHP graduate programs office or complete the UNA “Incident Report” form. For additional information or follow-up, refer to the professor of the course.

G. Incidents/Accidents

If the student is involved in an untoward incident (e.g. needle stick, medication error) or an accident while in the clinical agency, the student is to follow the agency’s protocol and complete appropriate forms. Inform the professor of the course as soon as possible after the incident and fax a copy of the completed forms to the Graduate Programs Office. If the agency does not have forms available, complete a copy of the UNA Incident Report (See Appendix) and fax it to the Office within 24 hours of the incident.

III. PROCEEDING THROUGH THE PROGRAM

To be enrolled in required practicum courses (NU 680, NU681, NU682, NU683) students must complete pre-requisite courses (see UNA Graduate Catalog). Course sequence will be individualized for part time MSN students. The following general information will provide the student with answers to questions arising during the journey to graduation.

A. Academic Honesty

All members of the university community are expected to be honorable and observe standards of conduct appropriate to a community of scholars. Students are expected to behave in an ethical manner. Individuals who disregard the core values of truth and honesty bring disrespect to themselves and the University. A university community that allows academic dishonesty will suffer harm to the reputation of students, faculty, and graduates. It is in the best interest of the entire university community to sanction any individual who chooses not to accept the principles of academic honesty by committing acts such as cheating, plagiarism, or misrepresentation.

- Students enrolled in the University of North Alabama, Anderson College of Nursing and Health Professions are expected at all times to uphold standards of integrity. Students are expected to perform honestly and to work in every way possible to avoid and eliminate academic dishonesty. Academic dishonesty includes misrepresentation, cheating, and plagiarism, which are defined as follows:
  - Misrepresentation is purposely altering or inventing information or data. Examples include, but are not limited to, forging a signature, fabricating information on a form, or falsifying the number of clinical practicum hours completed.
  - Cheating is an attempt to deceive the instructor in the effort to evaluate fairly an academic exercise. Cheating includes copying another student’s homework, class work, or required project (in whole or part) and/or presenting another’s work as the student’s own. Cheating also includes giving, receiving, offering and/or soliciting information on a quiz, test, or examination.
Plagiarism is the copying of any published work or copying the theme or manuscript of another student; when one uses direct quotations or ideas of another without proper credit. When three or more consecutive words are borrowed, the borrowing should be recognized in accordance with APA guidelines.

When it is determined that a student is guilty of misrepresentation or cheating in the Graduate Program:

- The student will be dismissed from the program.
- Offenses are reported to the Vice President for Academic Affairs and Provost for referral to the University Student Judicial System for disposition. (Please refer to the current University catalog, available online at www.una.edu/catalog, under General Regulations: Academic Honesty.

When it is determined that a student is guilty of plagiarism in the Graduate Program, the following penalties will apply:

- The student will receive a penalty of a zero on the work in question.
- If the student commits a subsequent offense at any time during his/her enrollment in the Anderson College of Nursing and Health Professions Online Program, a course failure will be given and the student may be subject to dismissal from the university.
- Offenses are reported to the Vice President for Academic Affairs and Provost for referral to the University Student Judicial System for disposition. (Please refer to the current University catalog, available online at www.una.edu/catalog, under General Regulations: Academic Honesty.

**Academic Honesty Agreement:**

By entering this online course, you agree to abide by the conditions of the Academic Honesty Agreement as explained above in all online courses for the duration of your enrollment in the University Of North Alabama Anderson College Of Nursing and Health Professions Graduate Programs.

Additionally, you acknowledge that UNA’s Graduate Program may submit any or all student work to Turnitin.com for originality checking. For more information, you can visit http://turnitin.com/static/products.html#originality_checking

**B. Student Copyright Notice**

“UNA courses may incorporate material contributed or licensed by individuals, companies, or organizations that may be protected by U.S. and foreign copyright laws. All persons reproducing, redistributing, or making commercial use of this information are expected to adhere to the terms and conditions asserted by the copyright holder. Transmission or reproduction of protected items beyond that allowed by fair use as defined in the copyright laws may require the written permission of the copyright owners. Copyright use as outlined in the TEACH Act is not yet valid at the University of North Alabama.”

**C. General Professional Behavior**

Professionalism is a quality the student should begin to develop from the first day in nursing. It is imperative that the MSN student dress professionally and project a professional demeanor in all settings. While in the clinical setting, students are expected to perform safely, adhere to established practices, be aware of their own limitations and to seek help when needed. Graduate students in the ACONHP MSN program are expected to conduct themselves
according to the highest ethical and moral standards depicted by honesty, accountability, accepting responsibility for own actions and a displaying respect for human dignity.

The MSN student's written work for clinical experiences should reflect personal involvement and commitment to promotion of each individual’s mental, social, physical and spiritual integrity. MSN students are expected to seek learning experiences and to show personal motivation to perform appropriately as opportunities become available. Following or during the clinical practicum experience, students are expected to complete and submit written work as directed by their preceptor and seek feedback. Students are expected to utilize preceptor feedback in completing subsequent assignments.

D. Student Folders

MSN students are advised to keep copies of all written work, documentation of required records, results of testing, and conferences with professors, e-mail messages and any other pertinent information related to course work in a folder. This folder is primarily for the use of the student and may offer clarification regarding the particulars of graduate study.

E. Grading System

The ACONHP follows the guidelines for grades as described in the Graduate Catalog. The letter grades are as follows: A-90-100%; B-80-89%; C-70-79%; D-60-69%; F-below 60%.
Conditionally admitted students must earn a 3.0 grade point average after the first nine hours of study. All students must maintain a 3.0 Grade Point Average (GPA) to remain in good standing in the program. A student, whose GPA falls below 3.0, may be placed on academic probation or eliminated from the program. The Graduate Catalog includes information on the disposition of such students. Students on academic probation are not eligible for graduation. A student making a grade of C or below on more than six semester hours of course work is automatically eliminated from the program. Grades of “incomplete” (I) are explained in the Graduate Catalog, under Grades and Retention.

F. Retention in the Program

1. Current records of health and practice information on file in the Anderson College of Nursing and Health Professions Graduate Programs office (See section IIA and IIB).
2. Maintaining a B (3.0) average throughout the MSN nursing program.
3. Satisfactory clinical practicum performance - Students in the Anderson College of Nursing and Health Professions who fail clinical practicum at any time during the semester, including the University’s withdrawal (“W”) period will receive a course failure (“F”).

G. Readmission

Any student who completely withdraws from the ACONHP MSN program must be readmitted according to the Graduate Catalog and readmission policy of the ACONHP. Students eligible to return to an MSN nursing course after a withdrawal or course failure in a required nursing course will be readmitted to the course on a “space available” basis.

Students who desire reinstatement to the graduation nursing program must write a letter of petition to the Anderson College of Nursing and Health Professions. The letter is to be sent to the Chair of Graduate Programs and must include any extenuating circumstances that may have contributed to the failure to be successful in the previous attempt in the MSN program. The letter must also include a plan for successfully completing the program, including specific strategies to ensure success.
After the graduate faculty reviews requests for readmission, recommendations are made to the Chair of the Graduate Programs and the Dean of the ACONHP. Students will then receive notification regarding readmission decisions from the Office of the Dean of the ACONHP. Readmitted students must follow any recommendations or stipulations proposed by the dean and faculty as conditions for readmission.

H. Clinical Practicum Experiences, Expectations, and Conduct

**Graduate Program Practice Experiences**

Practice experiences are activities that you complete during courses in your program of study. Completion of the practice experiences ensures that you meet the program and course learning outcomes. For the graduate program, practice experiences include a combination of the following activities and experiences.

- **Digital Simulations** (DS) for the MSN program are practice experiences that involve participation in digital clinical experiences through Shadow Health. Digital clinical experiences are a mechanism for verifying early mastery of new levels of direct care practice associated with the MSN prepared nurse. See Table below for specific details related to DS.

- **Preceptor Practicum Experiences** (PCE) for the graduate program take place in a healthcare facility in NU681, NU682 and NU683. In NU680, PCE in the teaching/learning track includes a practicum in an education institution, such as a University or Community College. See Table below for specific details related to Practicum experiences.

Nurse Leadership Track: Select a Preceptor who is a Masters prepared Upper-Level Manager (May be MSN or RN with MBA)

| Total Practice Experiences=240 hours | 180 PCE hours | 40 DS hours |

Rationale for Practice Experience Hours

The MSN program includes 220 practice experience hours to “provide learning experiences that are based in a variety of settings” (AACN Essentials of Master’s Education in Nursing, 2011, p. 27). Practice experiences integrate didactic learning, promote innovative thinking, and test new potential solutions to clinical practice or system issues” (p. 30). Practice experiences are integrated in the following courses:

Advanced Health Assessment (NU508), Advance Pharmacology (NU614), and Evidence-based Practice and Practicum Courses (NU680, NU681, NU682, NU683).

Graduate Student Responsibility for Securing Preceptor Experiences

- Graduate students are responsible for selecting preceptors in their geographical area.
- You must also obtain a preceptor that meets the stated course requirement for a preceptor and is employed full-time at the appropriate organization, a healthcare facility or University/community College setting, for example.
- It will be necessary for UNA to obtain an affiliation agreement with each PCE facility or setting. This process can take a considerable amount of time. Graduate students are urged to select both practicum preceptors as soon as they are enrolled in the first graduate course.
- Written approval from the course instructor is required before you can start any preceptor practicum experiences.
- All preceptor practicum experiences (NU680, NU681, NU682, NU683) are graded as pass/fail. A passing grade for clinical practicum hours is required in order to pass the practicum course. If you are unable to complete practicum hours prior to the end of the term, you must notify the preceptor and course instructor to create a plan of action for completion of practicum hours.
- A practicum experience hour is defined as the time you actually spend completing the practice experience assignment. Lunch breaks or travel time are not counted as clinical practice hours.
- You cannot work as a paid employee and receive credit for the same practicum experiences hours. That is, you cannot be paid for competing practicum experience hours when you are functioning in the capacity of a paid employee. If you are an employee at a practice experiences site or have any other formal relationship with the site, your role must be clearly defined in advance of the practice experience.
- Preceptor practicum experiences require you to create a third party account to complete specific requirements through your account.
Graduate Student Practicum Professional Conduct

While in the clinical practicum setting, students are expected to respect facility policies and equipment and to avoid chewing gum and smoking, as well as eating or drinking in undesignated areas. Graduate students are expected to seek learning experiences. Following (or during) the clinical practicum experience, students are expected to complete and submit written work and to seek preceptor and faculty feedback. Students are expected to utilize feedback in completing subsequent assignments.

Graduate student nurses are expected to practice self-protecting behaviors. These include using gloves when in contact with patients, avoiding recapping contaminated needles or otherwise contacting body fluids of patients. Students are also expected to protect patients from exposure to the student’s own body fluids. (See Needlestick/Body Fluids Exposure Protocol - Appendix A)

1. Professional Practicum Expectations. An Unsatisfactory practicum grade, course failure, and possible dismissal from the ACONHP will result when a critical incident or major violation of any professional nursing behavior is exhibited. A major violation is defined as the attempt to commit, the commission of, or intentional assistance in the commission of any of the following:

- Furnishing false information to the instructor, graduate department or clinical practicum facility with intent to deceive.
- Forgery, alteration, or misuse of patient or clinical facility/organization documents or records.
- Any conduct or unsafe behavior that threatens the safety of a patient. This would include failure to disclose information regarding omission of care or error in patient of care.
- Theft from a clinical facility or organization. This would include medications and medical supplies.
- Possession or use of dangerous drugs and narcotics except as legally prescribed.
- Coming to a clinical facility under the influence of mind altering substances.
- Failure to maintain confidentiality of privileged information.
- Sexual harassment – Unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature that tends to create a hostile or offensive learning environment.

Violation of the professional, legal and ethical code of conduct for registered nurses, violation of UNA ACONHP policies, or violation of the UNA Code of Student Conduct at https://www.una.edu/student-conduct/ constitutes cause for removal from the clinical practicum site, failure of the course and/or Administrative Dismissal of the student from the program. In such cases, the student’s transcripts will reflect the University’s grade system as outlined in the university catalog.

MSN students are expected to complete course and clinical practicum experiences according to course deadlines. Although MSN students are licensed practitioners, they are expected to obtain clinical help or supervision from their clinical practicum preceptors and instructors as needed.

Attendance is expected for all planned clinical practicum experiences. If illness, or impaired mobility occurs, or tardiness is anticipated, the student should notify the preceptor and the assigned clinical practicum agency before the start of clinical practicum experiences. Many clinical facilities do not allow individuals with contagious diseases, colds, fever, draining
wounds, or gastrointestinal disturbances to be near clients. If these conditions occur, the student should contact the preceptor for directions and notify the course instructor. MSN students are required to complete 180 hours of clinical practicum to receive credit for the practicum courses. Eighty (80) hours are accumulated during each of the two practicum experiences and ten (10) hours are earned in the practicum courses while working on an evidence-based practice project.

Tardiness is considered unprofessional behavior. Clinical tardiness may be considered an unexcused absence and an unsatisfactory grade may be earned.

2. Drug & Alcohol Testing - The University of North Alabama Anderson College of Nursing and Health Professions is committed to maintaining a drug and alcohol free academic environment and clinical work setting by maintaining a ZERO TOLERANCE policy for substance abuse. The ACONHP reserves the right to require random alcohol and drug screening of any nursing student. Random screening will be at the expense of the student. All drug/alcohol testing results will be confidential and will not be disclosed to third parties unless disclosure is required by law or the student has consented in writing to release of the information.

The presence or use of drugs or alcohol, lawful or otherwise, which interferes with the judgment or motor coordination of MSN nursing students, poses an unacceptable risk for others, the University, and affiliating clinical agencies. Under no circumstances should MSN nursing students participate in courses or clinical practicum activities while they are impaired. When a student’s academic or clinical practicum performance is impaired or there is *reasonable suspicion the College of Nursing reserves the right to require the student to submit to drug/alcohol testing at the expense of the student. Drug testing will be done in accordance with the policies of the clinical facility to which the student is assigned. Detected drug abuse will be grounds for dismissal from the ACONHP. Following dismissal, students have the right to appeal the dismissal decision and apply for readmission.

A licensed MSN student who refuses to submit to drug/alcohol testing based on *reasonable suspicion or a licensed nursing student who has positive drug test results will be reported to the appropriate board of nursing and will be dismissed from the ACONHP. If licensure status changes, full reinstatement of licensure will be required for an unrestricted return to the ACONHP MSN program.

*Reasonable suspicion means there is reasonable evidence for concluding that a student is impaired. This evidence might include but is not limited to: the odor of alcohol or drugs, impaired behavior such as slurred speech, decreased motor coordination, and difficulty maintaining balance, or marked changes in personality or clinical practicum performance.

3. Confidentiality and Social Media - Students may be required by clinical agencies and the ACONHP to sign confidentiality and affidavit forms. Any information obtained regarding others’ personal information must be maintained in the strictest of confidence. Discussion of others’ personal information should be limited to necessary interactions and not continued during lunch or outside of the agency. Failure to maintain confidentiality is subject to a clinical practicum unsatisfactory grade and course failure. For the purposes of submitting written work, the student should not use clients’ names.

While social networks and the internet can be valuable resources for disseminating information, online content and behavior have the potential to have serious negative consequences if media
tools, such as blogs, wikis, podcasts, virtual worlds, and social networking are not used responsibly. Facebook, Twitter, Instagram, and other social networks are public domains. Use of these and other electronic media are never to be used to discuss patient or class information. These media are NOT the type of forum to share and state your personal views of the course, instructors, other class members, patients or your evaluation of performance. This information is private and all efforts to protect this privacy are YOUR responsibility. DO NOT share or provide any personal information with any patient who may be able to locate you outside of clinical time.

Inappropriate use of social media is considered unprofessional and unacceptable in the ACONHP. Violations will warrant disciplinary action and could result in course failure and/or dismissal from the nursing program.

I. Medical Release Requirement
To ensure a safe practice and educational environment, a medical release form must be completed by the healthcare provider and submitted to the Dean’s office for the following medical situations:

- Any change in health status, including new prescriptions for potentially mood or behavior altering effects
- Post hospitalization
- Post injury
- Prolonged illness
- Pregnancy complications
- Postpartum

This is not intended to be a comprehensive list of conditions requiring a medical release. Please consult the Chair of Graduate Programs if you have questions or concerns.

J. Advisement
When a student is accepted into the ACONHP MSN program, the student is initially advised by the Coordinator of Graduate Nursing Enrollment and then assigned an advisor who is a member of the MSN faculty. Students are expected to consult the UNA Graduate Catalog for information. Questions concerning the MSN program not addressed in the catalog or in course outlines should be directed to the assigned advisor.

K. Sigma Theta Tau
Graduate students may be eligible for membership in the UNA chapter of Sigma Theta Tau International.

- have completed ¼ of the nursing curriculum;
- have at least a GPA of 3.5 (based on a 4.0 grading scale); or an equivalent of this measure of academic achievement when GPA is not available.
- meet the expectation of academic integrity.
L. Student Representation on ACONHP and UNA Committees
Students are encouraged to participate in the committees of the ACONHP. Students may volunteer to represent their peers on several MSN Graduate Programs Committees (contact your professors for a list of committees allowing student representatives). MSN students are also eligible for membership on UNA committees including the Graduate Council Committee. Notify your professor if interested in becoming a member of these committees.

M. Faculty Evaluation
MSN students will have opportunity to evaluate each MSN course and their professors. These evaluations are used to collect information that will benefit faculty as they continue to improve courses and the MSN program. Therefore, students should provide fair, honest and constructive comments. All evaluative comments will be tabulated and made available to the professor, department chair and the dean after final grades have been submitted. Evaluations are administered online.

IV. DISCIPLINARY/GRIEVANCE POLICIES
Disciplinary policies and processes of the ACONHP will be identical to those found in the UNA Graduate Catalog regarding general student behavior and as designated in specific MSN course syllabi.

University grievance procedures are found in the University Student Handbook and are available through the Office of Student Conduct and on the website at http://www.una.edu/student-conduct/grievance-procedures.html. The University grievance procedure is intended to insure that each student has available to her/him clear instruction on how to bring complaints to the attention of faculty members and administrators. Since most grievances are resolved at the level where the problem arose, the student is urged to initiate resolution at that level.

As set forth in the University Student Handbook and the Office of Student Conduct, the student shall proceed through the following channels until such time as the grievance is resolved, or the student chooses to terminate the process:

1. The faculty member immediately involved
2. MSN Program Director
3. The Department Chair
4. The Dean of the Anderson College of Nursing and Health Professions
5. University Ombudsman
6. Formal Grievance Committee Hearing

V. GRADUATION PREPARATION
The UNA Graduate Catalog describes the minimum hours of study required to be taken at UNA, the number of courses at the 600 level required, the application for graduation procedure and commencement routines. Students who have questions about graduation can contact their assigned advisor, current MSN professors or the Coordinator for Graduate Programs Nursing Enrollment.
At least **two full semesters** before anticipated graduation, students must formally apply for graduation through the Registrar's Office (Graduation applications are available from the University Registrar's Office or at the following website [http://www.una.edu/registrar/graduation.html](http://www.una.edu/registrar/graduation.html)). A summary sheet will be filled out by the University Registrar's Office to assure that course requirements have been met for graduation. Information regarding the graduation ceremony, diplomas, caps and gowns, etc. will be available on the UNA web site or questions can be directed to the University Registrar's Office.

**A. Anderson College of Nursing and Health Professions Pin**

MSN students interested in obtaining the ACONHP Nursing pin should contact the Anderson College of Nursing and Health Professions Graduate Programs office.

**B. Employment References**

References for potential employers should be sought on an individual basis.
Appendix A

UNIVERSITY OF NORTH ALABAMA ANDERSON COLLEGE OF NURSING AND HEALTH PROFESSIONS

STUDENT NEEDLESTICK/BODY FLUID EXPOSURE PROTOCOL

The following steps should be followed in the event of a needlestick/body fluid exposure by students. Post exposure from blood and body fluids, the student will:

1. **Immediately** wash the exposed area.
2. **Immediately** report the incident to the UNA practicum instructor.
3. Complete incident reports at facility (if available) and UNA (see Dean’s secretary).
4. After completion of items 1-3, the student must choose one of the following three options:
   
   **Option I** - Sign consent to decline HIV/HAA Serology testing.

   **Option II** - Report to personal physician and/or Health Department/local emergency room for HIV Serology testing (at student's expense).

   **Option III** - 1) Report to UNA University Health Services for HIV/HAA Serology testing.  

   2) Antibody titers will be drawn at 3, 6, & 12 month intervals (at student’s expense).

Appendix B

UNIVERSITY OF NORTH ALABAMA ANDERSON COLLEGE OF NURSING AND HEALTH PROFESSIONS

TUBERCULOSIS EXPOSURE PROTOCOL

If students are exposed to patients who subsequently are shown to have tuberculosis, the following procedure is recommended:

1.) Complete appropriate incident reports (UNA and clinical practicum facility).

2.) Exposed students who have never had a positive tuberculin skin test will be given the PPD skin test immediately and then again in **10-12 weeks following the exposure.**

3.) If a PPD skin test is **positive,** the student will be referred to the Health Department for further evaluation and treatment. A chest x-ray (at the student’s expense) is required to rule out pulmonary tuberculosis. If the student is symptomatic, a sputum culture is also required. Chest X rays are only performed at the Health Department once a month and sputum cultures can take up to 8 weeks for results; therefore, students are advised to obtain the PPD well in advance of the beginning of the semester.

4.) A student, who has had a positive PPD in the past and is subsequently exposed to tuberculosis during a practicum experience, will be referred to the Health Department.

5.) All students with positive PPD skin tests/Tuberculosis exposure must submit a medical release from the Health Department before returning to practicum experiences.

Incident Report

**DIRECTIONS:** This form is to be completed in ink by supervisors or cost center heads for accidents or incidents involving injury or potential injury to students or visitors on campus or during University-related activities. Complete this form as soon as practical after an incident or accident and deliver copies (no later than 24 hours following) to the Vice President for Student Affairs (UNA Box 5023) and the Vice President for Business & Financial Affairs (UNA Box 5003).

Appendix D

WEAPONS ON CAMPUS POLICY

Possession of firearms or other dangerous weapons is prohibited while on university-owned or controlled property. This includes all parking lots, grounds, and facilities. These weapons include but are not limited to:

1. Fixed blade knives on the person or in a vehicle or any folding knife with an overall length greater than eleven inches.
2. Shotgun, rifle, or other shoulder gun.
3. Pistol or revolver.
4. Air gun or spring compression gun.
5. Bow and arrow.
6. Crossbows.
7. Slingshots or other throwing weapons.
8. Spears.
9. Swords.
11. Fireworks or explosive devices.
12. Tasers or stun guns.

This prohibition applies to all members of the university community, visitors, and guests and applies whether or not a person in possession of such weapon has a permit to carry or possess the weapon. This policy does not apply to:

1. Law Enforcement Officers of the Federal Government, state, or of any county, city, or town when in the discharge of their official duties.
2. Civil officers of the United States in the discharge of their official duties.
3. Private police or security personnel when hired by, or under contract with, the University.
4. Law Enforcement Officers attending school as students. Their weapons must be concealed unless wearing a uniform.
5. Campus food service knives.
6. The President’s Residence.

Visitors and guests may temporarily store weapons at the Department of Public Safety for no more than 48 hours. The Department of Public Safety and the University are not responsible for lost or damaged items.

Exceptions to this policy may be granted for certain instructional purposes, displays, ceremonies, drills, reenactments, and performances and must be authorized by the Director of Public Safety or his designee.

For students, unauthorized possession of weapons shall constitute grounds for summary suspension. For faculty and staff, unauthorized possession of a weapon shall constitute a violation of board policy.

Influenza Vaccination: Consent Form

UNA Anderson College of Nursing and Health Professions recommends that students receive the influenza vaccination to protect the patients and themselves from the virus. A copy of this form is to be submitted to the College of Nursing after the dose is documented. Additionally, a copy is to be kept in the student’s portfolio.

I have had the opportunity to read, ask questions and understand benefits and risks of the flu immunization. I agree to receive the dose required for the optimum immune response. However, as with all medical treatment, I understand there is no guarantee of immunization or the absence of adverse side effects from the vaccine.

Influenza Vaccination: Declination Form

I understand that, due to the nursing occupational exposure, I may be at increased risk of acquiring the flu virus. I have been given the opportunity to be vaccinated with the flu vaccine. I acknowledge that influenza vaccination is recommended by the CDC for all healthcare providers to prevent infection from the virus and transmission of influenza and its complications, including death, to patients, coworkers, family, and the community. I recognize that this disease kills thousands of people in the US each year and that I can shed the virus for 24 hours before influenza symptoms appear. I also understand that I cannot get influenza from the influenza vaccine and that the strains of virus that cause influenza infection change almost every year requiring yearly vaccinations. I understand that by declining this vaccine, I continue to be at risk of acquiring the flu and transmitting it to others. After reviewing this information, I choose to decline the vaccination. I may change my mind and accept the vaccination later, if vaccine is available. I have read and fully understand all the information on this declination form. I decline vaccination for the following reason(s). Please check all that apply:

☐ I believe I will get influenza if I get the vaccine.
☐ My philosophical or religious beliefs prohibit vaccination.
☐ I have an allergy or medical contraindication to receiving the vaccine.
☐ Other reason – please tell us. ____________________________

Medical Reasons:

☐ Allergic to Eggs/egg products
☐ Transplant recipient

☐ I do not like needles.
☐ I do not wish to say why I decline.
☐ Other reason – please tell us. ____________________________
