I. GENERAL INFORMATION

A. Introduction

The policies in this Anderson College of Nursing & Health Professions (ACONHP) Student Handbook are supplemental to the *University Catalog* and the *University Student Handbook*. These ACONHP policies are written to help the student progress through the program. The UNA and the ACONHP reserve the right to make changes in this handbook as deemed appropriate.

According to the *University Catalog*, "Students are expected to adhere to standards of professional conduct as described in the *American Nurses Association Code of Ethics for Nurses*. Full text of this Code is available at: [Nursing World Code of Ethics Website](#)

The faculty of the UNA Anderson College of Nursing & Health Professions congratulates you on your acceptance into the nursing course of study. There are many planned worthwhile learning experiences to enable the student to become a beginning professional nurse who can think critically, communicate effectively, and provide therapeutic nursing interventions. This course of nursing study is rigorous. The student must read and study continually in order to learn information needed to successfully progress through the program. It is important that the student complete study and performance assignments on time.

The baccalaureate degree program in nursing and master's degree program in nursing at the University of North Alabama are accredited by the Commission on Collegiate Nursing Education (<http://www.ccnaccreditation.org>).

The pre-licensure baccalaureate degree program in nursing is approved by the Alabama Board of Nursing (ABN). Students should review the [Alabama Board of Nursing website](#) for the rules and regulations pertaining to licensure and nursing practice in Alabama. Approval of the ABN (or state board in the state where the student wishes to be licensed) is required before students are allowed to take the National Council Examination (NCLEX). See [Appendix H](#) for current ABN licensing questions.

B. Accommodation for Disabilities Awareness Statement

In accordance with the American with Disabilities Act (ADA) of 1990 and Section 504 of the Rehabilitation Act of 1973, the ACONHP endorses the university commitment to students with disabilities. ACONHP will provide reasonable accommodations for student with eligible documented learning, physical and/or psychological disabilities.

Nursing is a practice discipline with cognitive, sensory, affective, and psychomotor performance requirements. Qualified individuals are those who satisfy admission requirements and who can perform essential functions of a nursing program with or without reasonable accommodation or modification.

Students must satisfy the Essential Performance Standards of undergraduate nursing students. A list of these standards is provided in *Appendix G*.

To be eligible for program accommodation, students must self-identify to the university's office of Disability Support Services (DSS), who will determine eligibility for services. Once eligibility for accommodations is determined by DSS, it is the students' responsibility to request appropriate accommodations. If Essential Performance Standards cannot be achieved by the student, either unassisted or with dependable use of assistive devices, in consultation with the faculty, the dean reserves the right to withdraw the student from the nursing program.

C. Title IX Discriminatory Harassment

The University of North Alabama and Anderson College of Nursing & Health Professions have an expectation of mutual respect. Students, staff, administrators, and faculty are entitled to a working environment and educational environment free of discriminatory harassment. This includes sexual violence, sexual harassment, domestic and intimate partner violence, stalking, gender-based discrimination, discrimination against pregnant and parenting students, and gender-based bullying and hazing.

Faculty and staff are required by federal law to report any observations of harassment (including online harassment) as well as any notice given by students or colleagues of any of the behaviors noted above. Retaliation against any person who reports discrimination or harassment is also prohibited. UNA's policies and regulations covering discrimination and harassment may be accessed at [**UNA Title IX Website**](#). If you have experienced or observed discrimination or harassment, confidential reporting resources can be found on the website or you may make a formal complaint by contacting the Title IX Coordinator at 256-765-4223.

D. Diversity Statement

"The concept of diversity encompasses acceptance and respect. It means understanding that each individual is unique and recognizing our individual differences. These can be along the dimensions of race, ethnicity, gender, sexual orientation, socio-economic status, age, physical abilities, religious beliefs, political beliefs, or other ideologies. It is the exploration of these differences in a safe, positive, and nurturing environment. It is about understanding each other and moving beyond simple tolerance to embracing and celebrating the rich dimensions of diversity contained within each individual."

E. Sexual Harassment

University policy prohibits sexual harassment. It is the responsibility of all students and employees to assure that our community is free from sexual harassment. Accordingly, all members of the university community must avoid any conduct that is or has the appearance of being sexual harassment. The University Ombudsman and the Office of Student Affairs have information about the University's sexual harassment policy.

The ACONHP UP program has adopted the legal definition of sexual harassment as follows:

Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature that tends to create a hostile or offensive educational environment.'

F. Vision, Mission, and Goals

The ACONHP vision is to improve health in the community by effecting change in systems and policies and to promote research and scholarly activities that advance nursing and health care knowledge. The ACONHP mission is to graduate nurses and other health professionals who are prepared to assume professional roles in diverse health care environments.

Program Goals for ACONHP –Undergraduate Program (UP):

1. ACONHP: Provide high quality, innovative educational nursing and health related programs.
UP: Offer a high quality, traditional Bachelor of Science degrees in nursing and health related programs.
GP: Offer high quality online MSN program and Post-master's Certificate programs.
2. ACONHP: To build and maintain student-centered nursing and health related programs.
UP/GP: Graduate nurses and other health professionals who are prepared to practice in global health care environments.
3. ACONHP: Provide a culturally diverse environment for students, faculty, and staff.
UP/GP: Promote a culturally diverse learning environment designed to eliminate barriers to learning.
4. ACONHP: Develop partnerships with community agencies to expand healthcare to the community.
UP/GP: Develop and nurture a strong relationship with community health facilities and health professionals.
5. ACONHP: Promote research and scholarly activities that advance nursing and health care knowledge.
UP/GP: Foster scholarly activities, research, teaching, service, and practice that advance the knowledge base of nursing and other health care professions.

Student Outcomes:

The ACONHP achieves its vision and mission by producing graduates who:

1. Function in professional nursing roles.
2. Possess a foundation for graduate study.
3. Synthesize knowledge from a broad educational foundation upon which professional nursing practice is based.
4. Communicate and collaborate with members of the health team and other interested groups in identifying and meeting the health needs of individuals, families, and communities.
5. Demonstrate an understanding of the need for continuous personal and professional growth.
6. Possess basic knowledge about research and its application to practice.
7. Develop interpersonal and technological skills necessary to assume leadership roles within the BSN scope of practice.

II. FACULTY & STAFF

The Executive Assistant in the Dean's office is to be consulted about interdepartmental matters. The Administrative Assistant is to be consulted about departmental academic matters. The names, office numbers, phone numbers and E-mail addresses of the Administration, Faculty, and Staff can be found on the [ACONHP Faculty and Staff Webpage](#).

III. BEGINNING THE PROGRAM

ALERT: *The schedule for the first two weeks of each semester **requires the student to be available to attend class on Monday through Friday**. Prior to the semester's first day of class, a schedule will be provided to students.*

Notice to students: In order to avoid conflict with the intense nursing course and clinical requirements, students admitted to the nursing program must have permission from their advisor and nursing course instructor to add additional classes outside of the nursing curriculum.

Students must be eligible to participate in rotations in all clinical facilities to be eligible for admission/retention to the program.

A. Extracurricular Activities

Being involved in extracurricular activity such as band, ROTC, National Guard, athletics, Greek organizations, etc. does not prevent a student from being successful in the nursing program. However, nursing course and clinical requirements must take precedent over extracurricular activities. Therefore, the student should determine, after consultation with nursing faculty, whether these activities can be successfully continued while enrolled in the nursing program.

Please note: If you are a university athlete or involved in other extracurricular activities, you are required to consult your instructors, coach, and/or organization leader by the first week of classes to discuss and acknowledge the upcoming semester demands.

The student nurse must meet course and clinical requirements. Therefore, the student will need to develop a written plan/schedule which demonstrates an ability to successfully merge scheduled activities and academic studies. Schedule conflicts will require prior arrangements with the course instructor to meet required clinical rotation schedules, scheduled tests/exams, class assignments, projects, papers, etc. Nursing students are held accountable and responsible for classroom content missed due to an absence.

B. Student Health Requirements

Health related requirements are in place, in accordance with Occupational Safety & Health Administration (OSHA) and the Alabama Department of Public Health guidelines, for the protection of the student and others with whom the student may come in contact. Upon admission to the ACONHP, the student must have a physical examination completed by a physician or a nurse practitioner. **THE COMPLETED HEALTH FORM MUST BE MAILED**

DIRECTLY BY THE HEALTH CARE PROVIDER TO THE ACONHP, as instructed in the health form.

A copy of the student's complete **immunization record, completed 2 step TB screenings, Flu Consent or Declination Form, and CPR certification** must be provided to the ACONHP Undergraduate Program Coordinator of Nursing Enrollment. (If the immunization record is not available, results of antibody titers must be submitted before the beginning of the semester.)

To attend clinical rotations, **ANNUAL EVIDENCE** of meeting the criteria for Health Requirements must be given to the ACONHP UP Coordinator of Nursing Enrollment **the FIRST WEEK of the semester.**

Failure to submit health requirements by established deadline dates will **result in an administratively- assigned clinical unsatisfactory** for each delinquent day in each clinical course. The original immunization forms, etc. are to be kept in the student portfolio and are available upon faculty request. A copy of all health requirements and updates must be submitted to the ACONHP UP Coordinator Nursing Enrollment (do not leave under the door) and will be filed in the ACONHP student's file. Students CAN NOT provide patient care at any clinical agency experience until documentation of all student health requirements have been submitted.

Medical alerts are encouraged to be on person for student safety in the classroom and clinical settings.

Notice to students: Individuals who are immunosuppressed are more vulnerable to disease causing microorganisms. If you know or believe you have a suppressed immune system, please be warned that your participation in clinical learning experiences that involve direct client care could potentially jeopardize your health. **Students with a diagnosed immunosuppressed illness or disease must obtain medical clearance from their health care provider prior to participating in clinical rotations.** If you have any personal health status concerns, you are encouraged to see your health care provider for further recommendations.

Student Health Insurance:

It is recommended that each student obtain health insurance coverage. Students without health insurance coverage will be asked to sign a waiver releasing the University and all of its contracted clinical agencies of any and/or all responsibility for medical expenses which may be incurred during the course of clinical rotations required for nursing degree program.

Tuberculosis (TB) Skin Test Protocol:

Admission TB Skin Test for Level I Nursing Students

The **first** tuberculosis skin test must be a **two-step process** which consists of two tuberculosis skin tests administered 1-3 weeks apart. TB skin testing must be done through the UNA University Health Services or private physician. It is important to note that students must return to the facility (University Health Services or private physician's office) to have each tuberculosis skin test read within 48-72 hours of administration. If a student does not

have the skin test(s) read within 48-72 hours or does not return in 1-3 weeks for the second test, the TB test is invalid and will have to be repeated and may delay entry into clinical. Under no circumstances will a student be allowed to provide patient care until official documentation from the University Health Services or the private physician's office is received by the Anderson College of Nursing & Health Professions.

Annual TB Skin Test (PPD) Protocol for Level II, Level III, & Level IV Students

Once a student has completed the initial two-step process, the student is only required to have an annual single PPD. **It is recommended that students have this done near the beginning of the semester so that results are available by established deadlines and valid throughout the semester.** All TB skin testing must be done through the UNA University Health Services or private physician. Under no circumstances will a student be allowed to provide patient care until official documentation from the University Health Services or private physician is received by the Anderson College of Nursing & Health Professions. **Students may not provide patient care and will receive an unsatisfactory for each clinical experience absence related to failure to submit TB documentation requirements by established deadline dates**

Positive TB Skin Test Results

If a student has a positive TB skin **test for the first time**, the student is required to be evaluated by a provider at UNA University Health Services or his/her private physician. Under no circumstances will a student with a first-time positive TB test be allowed to attend class and/or clinical rotations until official documentation of no active TB is received. **Students will receive an unsatisfactory for each clinical experience missed related to health requirement documentation deficiencies.**

If a student has **past history** of a positive skin test for tuberculosis, he/she should complete the Tuberculosis (TB) Screening Questionnaire (*Appendix F*) **annually**. The TB Screening Questionnaire must be reviewed and signed by a health care provider at UNA University Health Services or by his/her private physician. Students may not provide patient care and will receive an unsatisfactory for clinical experiences missed until TB health documentation is received. **Evidence of meeting student health requirements is due the first week of the semester.**

Hepatitis B Vaccine:

All students are strongly encouraged to become vaccinated against the Hepatitis B virus. The vaccine is administered in a series of three injections. Students who elect not to take the vaccine must sign a declination form, before the start of classes, which may be obtained from the ACONHP UP Coordinator of Nursing Enrollment.

Influenza (Flu) Vaccine:

UNA Anderson College of Nursing & Health Professions recommends that students receive the influenza vaccination to protect the patients and themselves from the virus. Clinical agencies may require students who decline the influenza vaccine to wear a mask in the clinical setting. A copy of the Flu Consent or Declination Form (*Appendix D*) is to be submitted to the Anderson College of Nursing & Health Professions after the dose is documented or declined. Additionally,

a copy is to be kept in the student's portfolio.

CPR Certification:

All students must have current certification in AHA Healthcare Provider Cardiopulmonary Resuscitation (CPR) and present evidence of AHA Healthcare Provider CPR re-certification **every 2 years**. Students will not be able to attend clinical rotations until documentation of AHA Healthcare Provider CPR certification is updated. Failure to meet CPR certification requirements may result in clinical failure and/or Administrative dismissal from the Anderson College of Nursing & Health Professions.

Annual Training Requirements:

Occupational Safety and Health Act (OSHA) and Compliance training requirements are to be renewed annually. Compliance training requirements are held each semester with the date, time, and location announced prior to the semester's first day of class. **This is a clinical required day**. Failure to meet the training requirements will result in the student not being allowed to attend clinical, and an unsatisfactory may be given daily. Failure to meet CPR/OSHA requirements may result in expulsion from the Anderson College of Nursing & Health Professions. OSHA and Compliance training are required **ANNUALLY, the first week of the semester, prior to beginning clinical experiences.**

C. Student Liability Insurance Requirements

Liability insurance is required of each student admitted to the nursing major. This is not health insurance but is nursing practice insurance for the student, which is required by the clinical agencies. The insurance covers the student while participating in required clinicals arranged by an ACONHP faculty member. It does not cover the student when working as a nursing/patient care assistant. The primary carrier used by the ACONHP is Cotterell, Mitchell, and Fifer (CM&F), Inc. of New York. Information for online orders will be distributed upon acceptance to the program.

D. Criminal Background Check Requirements

Clinical agencies require students to have a criminal background check prior to participating in clinical experiences. A satisfactory criminal background check upon admission is required to participate in the nursing program. The status of applicants with background checks that are not clear will be reviewed by the Admissions Committee. Information on obtaining a background check is provided upon application to the program.

E. Drug/Alcohol Policy

The University of North Alabama Anderson College of Nursing & Health Professions (ACONHP) is committed to the health, safety, and well-being of all students who participate in the program and represent the college in clinical agencies. The ACONHP academic environment and clinical work setting is drug and alcohol free, and ACONHP enforces a

ZERO TOLERANCE POLICY FOR SUBSTANCE ABUSE. Substance abuse interferes with a student's mental faculties, judgment and other skills and poses an unacceptable risk for patients, colleagues, the University, and affiliated clinical agencies. The use of illegal drugs, misuse of legal drugs and dietary supplements, use of performance-enhancing substances, misuse of alcohol, and inappropriate use of tobacco products, is inconsistent with ACNHP standards and expectations and is prohibited. Such substance abuse will not be tolerated. In addition, all student nurses are subject to applicable federal, state, and local laws addressing drug and alcohol use.

Substance abuse prohibited:
ACONHP strictly prohibits the following:

1. The use, possession, solicitation, or sale of narcotics or other illegal drugs, alcohol, or prescription medication without a prescription, on and off of ACOHNP property and clinical sites.
2. Students from being impaired by or under the influence of controlled substances, legal drugs, illegal drugs, or alcohol, on or off ACOHNP premises and clinical sites.
3. The presence of any detectable amount of prohibited substances in a student's body while on ACOHNP premises or clinical sites. "Prohibited substances" shall include controlled substances, illegal drugs, alcohol, or prescription drugs not taken in accordance with valid prescription.

Ignorance of the legality of a substance, the chemical composition or contents of a substance, the manner of ingestion, or a prescription requirement shall not operate to excuse a violation of this policy.

A blood alcohol level/drug screen and urine drug screen will be collected at any time the nursing student demonstrates behavioral changes reasonably suspected to be related to substance abuse. Reasonable suspicion means there is evidence for concluding that a nursing student is impaired. This evidence may include but is not limited to: the odor of alcohol or drugs, impaired behavior such as slurred speech, decreased motor coordination, and difficulty maintaining balance or marked changes in personality, dress, or clinical performance.

Under no circumstance should nursing students participate in nursing related courses or clinical activities while they are impaired. Impaired is defined as a **blood alcohol level/drug screen greater than zero (0.00)**. A positive substance abuse test (blood and/or urine) shall result in **permanent dismissal** from the program on the basis that the student is not able to meet the course objectives for classroom/and or clinical experiences.

The cost of drug and alcohol testing conducted for reasonable suspicion shall be the responsibility of the student. Drug screenings may require review by a Medical Review Officer, which will result in an additional fee to the student. A student's failure to submit to a required drug screen, or attempting to tamper with, contaminate, or switch a sample will result in the student not being allowed to meet objectives for the course; therefore, progression in the program will not be permitted and will result in permanent dismissal from the program. The ACONHP covers the cost of random drug testing.

A nursing student who is licensed (i.e., licensed practical nurse, respiratory therapist, etc.) who refuses to submit to drug/alcohol testing based on reasonable suspicion or a licensed nursing student who has positive drug test results will also be reported to the appropriate licensing board and will be permanently dismissed from the ACONHP.

All drug/alcohol testing results will be confidential and will not be disclosed to third parties unless disclosure is required by law or the student has consented in writing to release of this information.

The drug screening will only be administered within the given time frame allotted at the designated testing facility. **The cost of drug and alcohol testing conducted for reasonable suspicion shall be the responsibility of the student.**

The ACONHP Drug/Alcohol Policy, including its standards and procedures, may be amended at any time, with or without notice, in the sole discretion of ACONHP.

F. Confidentiality

Students are required by clinical agencies and the ACONHP to sign confidentiality forms. Any information obtained regarding patients in the clinical agency must be maintained in the strictest of confidence. Information such as a patient's name, diagnosis, or physician must not be discussed in public or online. Discussion of this information should be limited to the pre or post conference time and not continued during lunch, outside of the agency or online. For the purposes of submitting written work, the student should use initials instead of the patient's name and not include persona identifiable information such as birthdate, phone, address, etc.

Failure to maintain patient confidentiality is subject to a clinical unsatisfactory (clinical "U") and/or course failure.

G. Social Networking & Electronic Media

While social networks and the internet can be valuable resources for disseminating information, online content and behavior have the potential to have serious negative consequences if media tools, such as blogs, wikis, podcasts, virtual worlds, and social networking are not used responsibly. Facebook, Twitter, Instagram, and other social networks are public domains. Use of these and other electronic media are never to be used to discuss patient or class information. These media are NOT the type of forum to share and state your personal views of the course, instructors, other class members, patients or your evaluation of performance. This information is private and all efforts to protect this privacy are YOUR responsibility. DO NOT share or provide any personal information with any patient who may be able to locate you outside of clinical time.

Inappropriate use of social media is considered unprofessional and unacceptable in the ACONHP. Violations will warrant disciplinary action and could result in course failure and/or dismissal from the nursing program.

Review American Nurses Association's Tips for Nurses Using Social Media

Failure to use social networks & electronic media responsibly is subject to a clinical unsatisfactory (clinical "U") and/or course failure and/or dismissal from the nursing program.

H. Books

Students are expected to purchase required textbooks and supporting materials. Each course syllabus will indicate which books and materials are required. Used books may be purchased from students or either one of the two bookstores. Books and supplies for each semester of the nursing program are estimated to exceed \$800 if purchased new.

I. Supplies, Expenses, and Transportation

Additional supplies such as a sphygmomanometer (blood pressure cuff), a stethoscope, penlight, a watch with a second hand, and bandage scissors will need to be purchased at the beginning of the first semester. As directed in the course syllabus, students must also purchase an additional supply kit from the on-campus bookstore. **Students must provide their own transportation for clinical experiences.**

J. Dress Code Policies

The nursing student's appearance is very important because it communicates self-image and attitude towards the profession. The UNA ACONHP uniform is required. **Violation of the dress code is an automatic clinical unsatisfactory.** It is essential that the values of neatness, cleanliness, and professionalism are evident. A list of the uniform requirements is provided at the new student orientation. The purchase of the uniform, shoes, name pin, etc. is solely the responsibility of the student. Price lists may be obtained from Performance Scrubs, or other vendors. Uniformity among students is expected. Therefore, **the purple scrubs must comply with the ACONHP style, color, and material requirements.** The material must be the moisture wicking, anti-microbial, and stain, wrinkle, and fade resistant. The 100% cotton scrubs are no longer acceptable for new purchases. A sample of the ACONHP uniform is available in the UP Coordinator of Nursing Enrollment's Office.

Students should be aware that while in uniform they represent the UNA Anderson College of Nursing & Health Professions and the nursing profession.

General Uniform Policies:

The purple scrub uniform is worn in assigned clinical settings. It must have the UNA student nurse patch on the left shoulder. Females may wear purple scrub material skirt (length must be

below the knee). Hose must be worn with skirts, and may be white or flesh colored support hose. With pants, all students are to wear white, black, or gray socks that must cover the ankle.

Shoes worn should be gray or black leather, suede, or double-mesh athletic shoes. Accent color may only be white, black or purple. Shoes must remain clean and in good repair throughout each semester. Shoes must have an enclosed back – **NO CLOGS**.

For additional warmth, students may choose to wear a plain white short-sleeve or long-sleeve knit or cotton shirt under their scrub tops. No long-sleeve material shirts allowed. Visible colored undergarments are not permitted.

To protect the uniform from environmental contaminants and to protect the public from contaminants that may have been obtained while providing care to the client, students should wear a white nurse's jacket of the same required material with a UNA Student Nurse patch on the left shoulder over the purple scrubs when going off of the assigned unit of care. The nursing jackets may not be worn while performing nursing care activities.

Outerwear may be worn over uniforms as needed outdoors for inclement weather conditions.

The uniform will be clean and wrinkle free when worn to the clinical experience. Pants should not touch the floor.

The name pin with picture ID must also be worn and clearly visible on the chest at all times, even if in facility scrubs. **No other pins, buttons, or apparel are to be worn with the uniform.**

During clinicals, students are to follow all department-specific facility dress codes, for example; shoes covers, isolation gowns and other PPE when appropriate.

Makeup should be moderately applied. No artificial eyelashes. No perfumed hand-sanitizer or lotion is to be used at clinicals. Only facility-approved hand-sanitizer or lotions may be used. Perfume or cologne may not be worn. Good oral and physical hygiene must be maintained. Body odor related to poor hygiene and/or smoking is not acceptable. Men should be neatly shaved with beards and/or mustaches neatly trimmed.

Hair will be neatly styled in a simple manner without ornaments such as bows. Recommended styles for long hair are a tight ponytail, braid, etc. **neatly** secured into a bun. Whatever the hair length, it should not be allowed to fall over shoulders or face while wearing the uniform. Unnatural hair coloring such as pink, green, blue, etc. is prohibited while at the clinical site or while wearing the UNA uniform.

Tattoos may not be visible while at clinical sites or while wearing the UNA uniform. All visible tattoos must be covered with bandage or long sleeves. The only jewelry allowed includes a smooth, plain wedding band with no stones and a plain watch with second hand (required). **NO SMART WATCHES or CELLULAR DEVICES** are permitted. When indicated, a medical alert may be worn. Permitted jewelry should not present a possible hazard or infection for patient or student. **No other jewelry or piercings permitted while wearing the UNA uniform.** Nails must be short, clean, and extend only to the tip of the finger. No nail polish of any kind allowed, including gel painted or artificial nails.

Preclinical Visit Uniform:

If a preclinical visit is assigned for a particular course, the student will be required to go to the hospital at a designated time prior to the clinical day to gather information about the client. Students must wear the white nurse's jacket with a UNA Student Nurse patch on the left shoulder over appropriate, professional clothing. The student nurse name and picture ID pin will also be worn on the jacket.

Examples of professional clothing are:

Blouse or shirt, dress or skirt at minimum knee length, dress pants, closed low heeled shoes, above ankle length socks with pants.

Examples of **unprofessional** clothing are:

Shorts of any style, T-shirts, tank tops, sequined or jeweled clothing, sundresses, jeans, apparel with logos or pictures, ill-fitting clothes, ruffles, sweat or wind suits, open toed, open heeled, high heeled shoes and footie socks.

K. Exposure to Blood-and/or Body Fluids

It is mandatory that the students wear certain personal protective equipment while in a clinical area when exposure to blood, sputum, saliva, feces, urine, vomitus, tears, nasal secretions, or other body fluid is anticipated. If exposure results in infection or injury, it will be the student's responsibility to incur the financial cost related to the exposure. Personal protective equipment is available at all clinical agencies and includes items such as gloves, masks, goggles, and gowns. All patients are treated as if they have a communicable disease regardless of age, sex, or ethnicity. This concept is called "standard precautions." It is the foundation of modern health care agencies approach to prevention of exposure to blood borne and other communicable diseases. The student is responsible for using the personal protective devices as needed. Failure to do so will result in a clinical unsatisfactory grade.

The ACONHP has in place protocols for exposure to needle sticks, exposure to blood and/or body fluid, and exposure to tuberculosis. **Report all exposures and incidents to your instructor and refer to the following items in this Student Handbook:** *Student Needle stick/body Fluid Exposure Protocol (Appendix A), Blood/Body Fluids Exposure Report (Appendix B), Tuberculosis Exposure Protocol (Appendix E), and Incident Report (Appendix L).*

IV. PROCEEDING THROUGH THE PROGRAM

ALERT: The schedule for the first two weeks of each semester **requires the student to be available to attend class on Monday through Friday**. Prior to the semester's first day of class, a schedule will be provided to students.

Notice to students: To avoid conflict with the intense nursing course and clinical requirements, students admitted to the nursing program must have permission from their advisor and nursing course instructor to add additional classes outside of the nursing curriculum.

A. Extracurricular Activities

If you are a university athlete or involved in other extracurricular activities, you are required to consult your instructors, coach, and/or organization leader by the first week of classes to discuss and acknowledge the upcoming semester demands. **Refer to Section II- A: Beginning the Program.**

B. Student Health Requirements

The following information will provide the student with answers to questions they may have as they journey to graduation.

The following student health records, certification, liability, and optional health insurance information must be kept up to date at least **ANNUALLY and as changes occur:**

- Tuberculosis screening
- AHA Healthcare Provider CPR certification (recertification every 2 years)
- Student Nurse Liability Insurance
- Health Insurance (recommended)
- OSHA Training
- Influenza Vaccine
- Vaccine record or titers

It is the student's responsibility to provide the ACONHP UP Coordinator of Nursing Enrollment with validation updates of current health requirement status (may not be left under the door). The student will not be able to provide patient care until status is verified. **Students will receive a Clinical Unsatisfactory (U) for each missed clinical experience related to health requirement deficiencies. Three Clinical Unsatisfactory (U) grades result in failure of the course.**

To progress in the professional nursing courses, students must possess a functional level of competence to perform in the basic skills of a professional nurse. Skills include (but are not limited to):

- Hearing ability (e.g., must be able to discern various health assessment sounds with a

- stethoscope);
- Visual ability (e.g., must be able to read small print or medication vials);
- Fine and gross motor skills (e.g., must be able to walk);
- Physical strength and endurance (e.g., must possess physical stamina to perform full range of required client care activities for the duration of work role)
- Emotional stability (e.g., must be able to assume responsibility and accountability for own actions)

Critical thinking (e.g., must demonstrate sound judgment regarding the provision of safe, ethical care in a variety of health care settings)

C. Academic Honesty and Testing

Students who do not practice academic honesty may receive a course failure. A breach of academic honesty includes acts of cheating, plagiarism, or misrepresentation. Students should review the UNA Catalog/Student Affairs: Student Expectations, Grievance and Disciplinary Process.

“You will be asked to leave the classroom or lab if you access any website on the computer, other than authorized by the instructor, during class or lab. If you access any website other than that authorized by your instructor during a test or quiz, it will be considered cheating and result in a course failure”

Note for testing security: Electronic devices such as cellular phones, PDA’s, Pocket PC’s, etc. **should be silenced and may not be in the student’s possession during any test.** No SMART or electronic watches are allowed to be worn during exams. Personal items, books, jackets, hats, and other personal items are to be placed in a designated area as instructed. **In addition, only paper and writing tools provided by the faculty may be used during computerized testing.** Students must return paper and writing instruments to the faculty before leaving the testing room. Notes and scratch paper **may not** be removed from the testing site.

D. Professional Behavior and Incivility Statement

Professionalism is a quality the student should begin to develop from the first day in nursing school. It is imperative that you display a professional demeanor in both the class and clinical settings and whenever in ACONHP uniform. Evidence of unprofessional behavior may result in disciplinary action. **See section IV Disciplinary Polices.**

Incivility Statement:

Incivility in the classroom is offensive, intimidating, or hostile behavior that interferes with the student’s ability to learn and with the instructor’s ability to teach. Incivility is any action that interferes with the harmonious and cooperative classroom, clinical lab, or online learning atmosphere. Disruptive behavior will not be tolerated and will be subject to disciplinary action.

E. Anderson College of Nursing & Health Professions Student Portfolio

It is the student's responsibility to keep up with his/her portfolio which is to be maintained in a 3 ring binder. The student is expected to place health information, CPR and liability insurance evidence in the portfolio. Failure to provide the portfolio to the faculty upon request will result in a clinical unsatisfactory. The portfolio will be brought to each clinical experience. The primary function of the portfolio is to demonstrate clinical experience and competence to clinical agencies. Additionally, the portfolio will provide a written record of the skills and written work completed each semester and should be available to be shown to potential employers upon graduation. The best written work from each course will be placed into the portfolio.

F. Standardized Testing Remediation

Students will maintain a Remediation Binder and documentation for all clinical courses and others as required.

- ***Students will maintain documentation of their remediation as a component of the Remediation Binder. Documentation will include all STANDARDIZED test scores in sequential order from Preadmission through Level IV of the nursing curriculum.***
- Requirements for standardized testing remediation will be stated in the course syllabus.
- Standardized test scores will count for a percentage of the grade as outlined in the course syllabus.

G. Math Medication Administration

The specific guidelines for the ACONHP Dosage and Solution Calculation and Administration Guidelines can be found in Appendix I in this Student Handbook. Please review this information prior to each semester and as needed for dosage calculation preparation.

H. Grading System: Retention, Progression, and Withdrawal

The ACONHP follows the guidelines as described in the *University Catalog*. To proceed through the program, the student must maintain a 2.0 GPA. To graduate from the ACONHP, the student must have a minimum grade point average of 2.0 (C) on all work attempted at the university and a C or better on all courses in the professional nursing component.

However, the numerical system of grading in the ACONHP is as follows:

A.....	90-100
B.....	80-89
C.....	75-79**
D.....	60-74
F.....	59-0

The ACONHP faculty/staff will not disclose grades over the telephone. At the discretion of the faculty member, examination grades may be posted according to student identification codes. Provision of a code, other than the social security number, by a student on an examination answer sheet is considered to be permission for the instructor to post the grade.

Retention in the program is based on continued satisfaction of health requirements, certification, liability requirements, and appropriate academic progress with a grade of C or better in each nursing course.

- Course required test scores must average 75% (tests only) prior to consideration of the addition of other course points (ex. Daily grades, assignments, etc). A final grade of C (75) with tests and daily grade must be maintained for progression. The test only 75% applies to all undergraduate NU courses except 406WR.
- If the 75% test-only grade is not met, then the test-only grade will be the Final grade that is submitted to banner.
- Cumulative daily grade average will be rounded at the end of the semester. Tests will not be rounded individually throughout the semester. Once a 75% test-only average is met (74.5 or higher), the final course grade will be computed to include all other graded components with a second and final rounding to determine final course outcome. (Note: 74.49 does not equal 74.5)
- Appropriate academic progress with a grade of **C (75)** or better in each professional nursing course and satisfactory in the clinical component of the course to receive a **C (75)** or better
- Satisfactory completion of nursing courses done in sequence. When a student receives a grade of less than **C (75)** or a clinical failure, the student may not progress to any clinical course until the failed course is retaken and requirements are met. Progression to a non-clinical course will require Department Chair approval.
- **Students must be eligible to participate in rotations in all clinical facilities to be eligible for admission/retention to the program.**
- For Level I, **NU 305 is the prerequisite and/or co-requisite for NU 301.** Therefore, if a student withdraws from NU 305, the student must also withdraw from NU 301 until NU 305 enrollment is resumed and/or completed. **NU 301 is the prerequisite and/or co-requisite for NU 302.** A student withdrawing from NU 301 must also withdraw from NU 302 until NU 301 enrollment is resumed and/or completed. A complete withdrawal from Level I will require the student to repeat the admission application process to apply for a future semester.
- **Course Incomplete requests** will only be considered after midterm and/or completion of 50% of the course and clinical requirements **for medical or personal extenuating circumstances. The student must provide** documentation of the medical and/or personal extenuating circumstances for review and/or approval by the Instructor and UP Chairperson. If approved, the student will follow the university guidelines for completing the course requirements the following semester.
- A student who has failed a nursing course may repeat the failed course only once. A student in the nursing program can receive no more than one course failure throughout the nursing program. After two course failures, the student will be dismissed from the program.
- Students in the Anderson College of Nursing & Health Professions who have received **3 unsatisfactories** in a clinical course for any reason (administrative or otherwise) **will receive a clinical failure and get an “F”** in the course. There are reasons other than three clinical unsatisfactories for which a student might fail clinical and these include

critical incidents found in **Disciplinary Section IV** of this handbook. **The clinical failure is an “F” for the course no matter when the student withdraws. This includes any time in the University’s withdrawal (“W”) period.** Should this be a second course failure for the student, the student **will be required to withdraw from all nursing courses at the time of the second course failure.**

- Students must be eligible to participate in rotations in all clinical facilities to be eligible for admission/retention in the program.
- Once admitted to the ACONHP, a student with a failing average in any nursing course may not withdraw from the course to prevent course failure. This includes any time within the University’s withdrawal (“W”) period. Any student who drops a course with an average of less than 75 (tests only) will receive a “WF”.
- In nursing courses, a “WF” for any reason is considered a course failure.
- **Students who are eligible to repeat a failed course will be readmitted to the course on a “space available” basis.**
- Any student who withdraws from Level I of the program must complete the readmission procedure, Section IV-D.
- A second withdrawal from the same course due to extenuating circumstances, will require Department Chair approval. The student will be required to wait one semester (excluding the summer semester) before retaking the course. Extenuating circumstances are to be determined by faculty on an individual student basis.
- Maintenance of 2.0 GPA throughout the nursing program.
- Once the student is “out of sync”, he/she must adjust to any curriculum changes occurring at that time.
- A student who has failed a nursing course will not be permitted to advance to courses in the accelerated track.

Students who fail out of the program should meet with their ACONHP academic advisor to discuss other education options at UNA.

I. Academic Interruption Plan

In the event that classes and/or clinical cannot proceed due to natural disaster or other reasons beyond control, it may become necessary for the ACONHP to enact the Academic Interruption Plan (AIP). This plan was developed by ACONHP faculty and administration and is approved by the Alabama Board of Nursing. It provides guidance for alternative methods of course delivery and clinical experiences. The chief goal of the AIP is to assist students with fulfilling course and clinical outcomes as outlined in the course syllabus.

J. Attendance/Tardiness

Class Attendance:

Regular and punctual attendance at all scheduled classes and activities is expected of all students and is regarded as integral to course credit. It is the student’s responsibility to sign the attendance log, to obtain missed assignments from the instructor, and to obtain notes from

classmates. Instructors may opt to provide handouts or other materials that were missed.

- **Two points may be deducted from the final grade for more than 3 unexcused absences.**
- **The student must directly (phone, email, or text) notify the course instructor prior to or the day of the absence to be considered excused.**
- **Two points per day may be deducted from the final course grade beginning the 4th class absence.**

Clinical Attendance:

Attendance is expected at all clinical experiences. If illness occurs or tardiness is anticipated, the student should notify the instructor and the clinical agency assigned before the start of class or clinical.

Many clinical facilities do not allow individuals with contagious diseases, colds, fever, draining wounds, or gastrointestinal disturbances to be near clients. Upon returning to school, the student must present a written note from a healthcare provider.

Disciplinary action will be taken if a student is absent without appropriate excuse, has failed to notify the professor of absence, or accrues excessive absences (See *University Catalog* and course syllabi). Exams missed due to absences may be made up only if protocol was followed and at the discretion of the faculty. The student is still responsible for all assigned work when absent. For further information, refer to the absenteeism policy in the *University Catalog*.

See Section III – A for requirements related to extracurricular activity absences

Tardiness is considered unprofessional behavior. Tardiness is considered an unexcused absence and will be recorded as such (see individual course syllabi for divergent rules regarding this issue). Roll is taken and recorded at each class and clinical meeting.

K. Medical Release Requirement

To ensure a safe practice and educational environment, a medical release form must be completed by the healthcare provider and submitted to the Dean's office for the following medical situations:

- Any change in health status, including new prescriptions for potentially mood or behavior altering effects
- Post hospitalization
- Post injury
- Prolonged illness
- Pregnancy complications
- Postpartum

This is not intended to be a comprehensive list of conditions requiring a medical release. Please consult your Undergraduate Department Chair if you have questions or concerns.

L. Illness/Injury

Wounds are to be covered at all times.

Should a student become injured at any time or ill during the clinical day and seek emergency room care, the student is responsible for all charges. Reminder: Complete the UNA Anderson College of Nursing and Health Professions Incident Form (*Appendix L*) and the Facility Incident Form if available.

Students who become ill or injured on campus will be referred to University Health Services (Bennett Infirmary). EMS "911" will be called for emergency situations with the student responsible for all charges for services.

M. Mental Health Emergency

If you suspect that an individual is suicidal or homicidal, CALL 911. Each county has a Mental Health Officer who will be contacted by the police. The Hostile Intruder Protocol is included in *Appendix J* of this handbook.

N. Drug and Alcohol Testing

ACONHP Policy is presented in Section III-E: Drug/Alcohol Policy of this handbook

O. Advisement

Students entering the ACONHP must complete all health care requirements before entering classes and clinical experiences. Students in levels II, III & IV will not be allowed to register if health records are incomplete. Level I students can register but will receive unsatisfactory grades in clinical (unable to attend with incomplete health records) until health records are completed. Once a student is admitted to the ACONHP the Undergraduate Program Chair becomes the students' advisor. Students in each Level are advised within the class as a group, usually late in the semester prior to their registration in the next semester. As an exception, the student taking less than a full course load will need to complete all courses at a particular level before moving to the next level. These students will need to check with their advisor prior to registration. The following nursing courses are listed in the following levels:

LEVEL I - NU 301, NU 302, NU 305
LEVEL II - NU 304, NU 306, NU 308/326R
LEVEL III - NU 406, NU 407, NU 409
LEVEL IV - NU 410, NU 411, NU 411

P. Anderson College of Nursing & Health Professions Lab and Equipment Use

Anderson College of Nursing & Health Professions equipment such as: simulation models or mannequins may be used on campus only. Mannequins and equipment must be handled with care and respect. Behavior in the campus labs is to mimic behaviors in the clinical areas. Students are to tidy campus lab bedrooms as if a hospital room. When available, campus labs may be used for skill practice between 8am – 4:30pm Monday – Friday. Students using the campus labs are responsible securing equipment, lights, and door locks before leaving the premises.

Each semester, students are responsible for the purchase of needed supply kits for use during clinical experiences. These kits are assembled and sold at the On-campus bookstore.

Q. Student Nurses Association

The purpose of the Student Nurses Association at the University of North Alabama is to contribute to nursing education in order to provide the highest quality of health care available; to provide programs representative of fundamental and current professional interests and concerns; and aid in the holistic development of student nurses and their responsibilities for health care of all people.

The Student Nurses Association at the University of North Alabama works to improve student life by representing the nursing student to the faculty, the University and community at large. This is accomplished through charitable means, public skill demonstrations, and the publishing of activities in local newspapers, as per UNA protocol. The SNA provides new nursing students the opportunity for fellowship, mentoring, and advice from senior level students who understand the degree of study needed in the first and second semesters of nursing school. Membership is open to all university students planning a career in nursing. Meetings are held monthly with membership drives and charitable activities spaced throughout the semester. Contact any ACONHP professor to inquire about the organization. Applications for SNA membership can be obtained from ACONHP website.

R. Sigma Theta Tau International Nursing Honor Society

Student nurses may be eligible for membership in Upsilon Omicron chapter of The Honor Society of Nursing, Sigma Theta Tau International. Students who have demonstrated superior academic achievement, academic integrity, and professional leadership potential may be invited to join during their final semester. Academic achievement is defined as GPA of 3.0 on a 4.0 scale and ranking in the top 35% of the graduating class.

S. Student Representation on ACONHP Committees

Student representatives are encouraged to participate in the committees of the ACONHP. The student representatives are selected through the Student Nurses Association (SNA). Student representatives on ACONHP committees include: Faculty Organization, Student Guidelines and Resources, Program Effectiveness and Curriculum, and Undergraduate Program Department Committee. Students are voting members and may submit agenda items for consideration while serving on these committees.

T. Faculty Evaluation

Student evaluations of faculty and courses are performed each semester for continuous program improvement. The faculty member will announce to the class in advance the time for evaluation. Ample time will be allowed to complete the evaluation form. Your comments and responses should be fair and honest. Since the purpose of the evaluation is improvement; document your comments in such a way that the instructor can benefit or improve his/her teaching. After your final grades have been submitted, your tabulated responses will be seen by the instructor, the dean, and the department chair.

U. Delay of Program Progression (Out-of-Sync)

Students who fail to progress with their original cohort due to course failure, medical leave, or extenuating personal circumstances will be required to meet all admission student health, CPR, and OSHA requirements the semester that they return to class. The returning/repeating student must contact the Coordinator for Undergraduate Nursing Enrollment at least two weeks prior to the beginning of the semester to confirm compliance with these requirements.

V. Clinical Agency Policies

Students are required to adhere to agency policies. These may include, but are not limited to the following:

1. The clinical agency may provide to the student, to the extent possible, first aid for injuries including, but not limited to, needle sticks. However, clinical agencies assume no responsibility to provide payment for care for any injury to the student. Payment of such treatment shall be the responsibility of the individual student.
2. Once assigned to the agency, additional forms and activities may be required of students including but not limited to:
 - a. Confidentiality form signature
 - b. Random Drug and Alcohol test, irrespective of reasonable suspicion of usage by student
 - c. Acknowledgement Form signature regarding the agency's Drug and Alcohol Policy

- d. Release Statement Form signature allowing agency to make independent investigation of student's background which may include but are not limited to:
1. Professional and personal references
 2. Past and current employment
 3. Criminal and police records
 4. Credit history (Consumer Reports)
 5. Motor vehicle records
 6. Professional credentials
 7. Public records
 8. Education
 9. Urine or blood tests to determine drug or alcohol use

V. DISCIPLINARY POLICES

Disciplinary policies and processes of the ACONHP will be identical to those found in the *University Catalog* regarding general student behavior and as designated in specific course syllabi and nursing student handbook. Expectations unique to the ACONHP are listed below.

A. Clinical Expectations

Any student who receives three unsatisfactory clinical grades will receive an "F" as the final grade for that course. The clinical failure is an "F" for the course no matter when it occurs. This includes any time in the University's withdrawal ("W") period. Should this be a second course failure for the student, the student will be required to withdraw from all nursing courses at the time of the second course failure.

Students are expected to attend all assigned clinical experiences for the hours specified. If a student is unable to attend any assigned clinical, he/she is expected to notify his/her clinical instructor and/or the clinical agency (See syllabi for specific instructions). Permission to leave the clinical experience early must be received from the clinical instructor. **Clinical absences will be made up at the discretion of the instructor.**

Students are expected to be prepared for each clinical experience. This may include having critical knowledge about the patient in advance, as well as being able to verbalize safe care. (The extent of the preparation may vary from course to course and from clinical to clinical within the course.) Being prepared for clinical includes adherence to the uniform dress code, and having needed equipment in possession (wrist watch with second hand, stethoscope, scissors, pen, notepad, etc.)

Students are expected to come to clinical mentally alert and physically able to care for

patients. Any evidence of drug or alcohol intoxication, use or abuse, or impaired ability to perform assigned duties, as described in the Student Conduct Statement in the *University Catalog*, **will result in disciplinary action**, including removal from the clinical setting, course failure and dismissal from the ACONHP. The University of North Alabama Anderson College of Nursing & Health Professions is committed to maintaining a drug and alcohol free academic environment and clinical work setting by **maintaining a ZERO TOLERANCE policy for substance abuse**.

While in the clinical setting, students are expected to administer medications safely to patients. This requires knowledge of toxic side effects, ability to calculate dosages accurately, and to follow protocols of safe drug administration. Students are expected to recognize their own limitations, to seek help when needed, and to adhere to established plans of care. Students are expected to recognize overt alterations in the patient's condition, report signs that a patient's condition is changing (these include unexpected fever, change in blood pressure, pulse or respirations). Once students are "checked off" in demonstration lab (most are in Level I), they are expected to perform procedures with decreasing supervision according to progression through the nursing program. Students are expected to exhibit moral and ethical behavior depicted by honesty, accountability (assuming responsibility for own actions) and respect of human dignity. Student's written work for clinical experiences should reflect personal involvement in patient care and commitment to promotion of each patient's mental, social, physical, and spiritual integrity (includes behaviors which protect patient's privacy and/or ensure a safe environment).

Students are expected to practice self-protecting behaviors. These include using gloves when in contact with patients, avoiding recapping contaminated needles or otherwise contacting body fluids of patients. Students are also expected to protect patients from exposure to the student's own body fluids. (See Needle stick/Body Fluids Exposure Protocol - *Appendix A*)

While in the clinical setting, students are expected to respect facility policies and equipment and to avoid chewing gum and smoking, as well as eating or drinking in undesignated areas. Students are expected to seek learning experiences and to show personal motivation to perform appropriate procedures as these become available. Following (or during) the clinical experience, students are expected to complete and submit written work as directed by their clinical instructor and to seek faculty feedback. Students are expected to utilize faculty feedback in completing subsequent assignments.

B. Grievance Procedure

The student who has a grievance should follow the procedure listed in the *University Catalog*. Should a student wish to appeal a course failure, a formal request should be made in writing to the Undergraduate Program Chairperson and to the Admissions, Readmissions, Progressions (UARP) Committee.

C. Unsatisfactory Behavior

The following behaviors are some examples considered clinically unsatisfactory. Others will be listed in the syllabi accompanying the appropriate courses. Three clinical unsatisfactory grades will result in an overall course failure in spite of course average. **ANY** nursing faculty observing a student demonstrating unsatisfactory behavior in the clinical setting may issue the student an unsatisfactory clinical grade.

1. Failure to notify the instructor of an unavoidable absence.
2. Failure to notify the instructor when late to clinical.
3. Leaving the clinical experience early without instructor's permission.
4. Excessive absence.
5. Failure to be prepared for the clinical experience. (Student does not understand how to provide care, does not understand calculations and implications of drugs, activity restrictions, or procedures).
6. Failure to follow the dress code.
7. Failure to possess needed equipment.
8. Mentally dull in clinical due to illness, fatigue, or drug abuse.
9. Inadequate knowledge of action, indications of toxic reactions and expected side effects of drugs to be administered to assigned patients.
10. Failure to follow protocols for safe drug administration.
11. Failure to accurately calculate drug dosage.
12. Failure to adhere to patient's plan of care.
13. Failure to report change in patient's condition.
14. Inability to perform practiced procedures at level expected.
15. Plagiarism in care plans or other written assignments.
16. Failure to be accountable for actions.
17. Violation of patient confidentiality.
18. Failure to provide safe environment for patient.
19. Failure to respect facility policies, equipment, and environment.
20. Failure to meet moral & ethical standards.
21. Failure to protect self from contact with body fluids of others.
22. Failure to protect others from contact with own body fluids.
23. Chewing gum or smoking; also eating/drinking in undesignated places.
24. Failure to recognize own learning needs or seek opportunities for performing procedures.
25. Failure to turn in, or be prepared with proper written work at the designated time.
26. Failure to utilize faculty feedback.
27. Failure to bring portfolio to clinical experience upon faculty's requests.
28. Failure to update and have required documents in portfolio and in the Dean's office.

29. Emotional instability to function effectively under stress or to adapt to changing situations.
30. Performing procedures or activities without adequate foreknowledge or supervision.
31. Inappropriate use of social media

A situation in which the student places the client's life in danger or shows severe behavioral misconduct toward the client and family, clinical facility staff, faculty, or other students, may result in immediate Administrative Dismissal of the student from the program. In such cases, the student's transcripts will reflect the University's grade system as outlined in the university catalog. Critical incident behaviors for which the Anderson College of Nursing & Health Professions has zero tolerance include:

1. Positive drug or alcohol test.
2. Evidence of dishonesty.
3. Falsifying information pertaining to patient care or condition.
4. Sexual harassment – Unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature that tends to create a hostile or offensive learning environment.
5. Grossly unprofessional behavior
6. Pattern of patient endangerment
7. Criminal, drug, or alcohol related misconduct, see ABN website:

Alabama Board of Nursing Administrative Code- Chapter 610-X-8 Disciplinary Action Weblink

D. Readmission to the Anderson College of Nursing & Health Professions

Criteria for consideration for readmission to the Anderson College of Nursing & Health Professions (ACONHP) following **course withdrawal and/or failure**:

1. After the semester in which the second D or F or WF is received in a course, the student may submit a letter to the Chair of the Undergraduate Program Department Admissions, Readmissions and Progressions (UARP) Committee for consideration for readmission. The letter should include:
 - a. Reason(s) for dismissal from the ACONHP.
 - b. Reason(s) for seeking readmission to the ACONHP. Student must state why s/he believes s/he can successfully complete the program if readmitted.
 - c. Actions taken to overcome the problems necessitating dismissal.

Any student **who completely withdraws**** from the nursing program must submit a letter to the Chair of the UARP Committee for consideration.

The letter should include:

- a. Reason(s) for withdrawal from the ACONHP.
 - b. Reason(s) for seeking readmission to the ACONHP. Student must state why s/he believes s/he can successfully complete the program if readmitted.
 - c. Actions taken to overcome the problems necessitating withdrawal.
2. The UARP Committee will review the student's request for readmission. The UARP Committee reserves the right to meet with a student, should they determine such meeting is necessary. Upon review of the student's request for readmission, the UARP Committee will submit a recommendation to the Undergraduate Program Chair, who will in turn make a recommendation to the ACONHP Dean. The Dean's recommendation will be final and is not subject to appeal. Students will be notified of the Dean's decision in writing.

If approval is granted, readmitted students will:

1. Be readmitted on a space available basis. A 2.5 GPA with a minimum "C" or better in all required pre- requisite courses and general studies component as listed in the *University Catalog* for nursing majors is required at the time of readmission.
2. Be readmitted part-time and take no more than six (6) hours in the nursing curriculum for the returning semester, unless authorized by the Dean.
3. Receive remedial work that will be arranged with the student on an individual basis.
4. Be assigned a faculty mentor and register for a 1.0 - 3.0 hour independent study for mentoring.
5. Provide documentation that study skills workshops have been completed prior to readmission.
6. Be permanently dismissed from the program if, as a readmitted student, she/he earns a grade below "C" (75%) or a "WF" in a nursing course.

Note to students: *If a student fails out of the ACONHP, the student will have **one opportunity** to apply for readmission. If the student is denied readmission on the first request, the committee will not address any further readmission requests.

**Complete withdrawal from Level 1 will require the student to complete the application process for consideration in a future semester.

VI. ENTERING THE PROFESSION

A. Graduation Preparation

Two semesters before graduation, students must formally apply for graduation. Graduation applications are available from the University Registrar's Office and deadline dates are published in the Courses & Exam Schedule each semester. Students should closely review their completed course work to ensure that all graduation requirements have been met. An Anderson College of Nursing & Health Professions representative will meet with the graduating nursing students to inform them of important deadline dates and distribute information for the upcoming semester. The Program Check sheet form should be reviewed at this time. The following are some of the other items which will be covered at this meeting.

B. Preparation for NCLEX

The ACONHP will provide students with information on obtaining the application for the NCLEX exam. The Executive Assistant for the ACONHP will assist the student with questions concerning the application for NCLEX and licensure. Students are responsible for submitting the application whether online or by hardcopy.

Students may apply for licensure in Alabama online at <https://www.abn.alabama.gov/apply/#tab-exam>. Students who plan to be licensed in other states must contact the Board of Nursing in the capital city of that state and request an application for examination or check the website for that state and abide by the process they require.

Each state has different requirements and deadlines, so students are required to note all requirements and deadlines for the applications. Most states require a passport size photograph of the student to accompany each application. The student is responsible for providing this photo and application to the executive assistant. The executive assistant will be responsible for mailing the state licensure applications when required to accompany the final transcript. After all information is received by the individual boards of each state and deadlines have been met, the state board of nursing will correspond directly with the student as to when he/she may arrange to take the NCLEX examination.

C. Anderson College of Nursing & Health Professions Pin

Traditionally, graduates of a particular college of nursing wear the pin of their school with pride. The UNA nursing pin follows the traditional symbolism. The blue on the pin is for truth, loyalty, and constancy. The gold stands for worthiness and the Golden Rule. The pin embodies the Maltese cross with an outer ring of laurel wreath which is symbolic of the victor's prize. Inscribed on the pin is the Latin motto, "amino et fide,"

meaning "by courage and faith." Online ordering information will be e-mailed to the graduating nursing students during the final semester by the executive assistant.

D. ANA Nursing's Social Policy Statement

"Nursing is often called a helping profession: *Nursing's Social Policy Statement* is about the many ways that nursing helps others. It is about the relationship—the social contract—between the nursing profession and society and their reciprocal expectations. This arrangement authorizes nurses as professionals to meet the needs involved in the care, and health of patients and clients and the health of society. It helps nurses engage in the political and legislative action that supports nursing education, research, and practice to better influence that health and care; and to understand the social ethics and justice that affect global and individual health" (ANA Enterprise, 2018). More information can be obtained at the [ANA Enterprise Website](#)

E. Miscellaneous

Information regarding the graduation ceremony, diplomas, caps and gowns, etc. will be distributed by the Registrar's Office through the student's UNA post office box

F. References

References for potential employers should be sought on an individual basis. If a student requests a reference from an individual faculty member, the student will need to sign a FERPA release form (see Appendix K).

VII. APPENDICES

A. Student Needle Stick/Body Fluid Exposure Protocol

UNA ANDERSON COLLEGE OF NURSING & HEALTH PROFESSIONS

Student Needle Stick/Body Fluid Exposure Protocol

The following steps should be followed in the event of a needle stick/body fluid exposure by students. Post exposure from blood and body fluids, the student will:

- 1) **Immediately** wash the exposed area.
- 2) **Immediately** report the incident to the UNA clinical instructor or clinical supervisor.
- 3) Complete incident reports at facility (if available) and UNA (see Dean's secretary).
- 4) After completion of items 1-3, the student must choose one of the following three options:
 - Option I: Sign consent to decline HIV/HAA Serology testing.
 - Option II: Report to personal physician and/or Health Department/local emergency room for HIV Serology testing (at student's expense).
 - Option III: 1) Report to UNA University Health Services for HIV/HAA Serology testing.
2) Antibody titers will be drawn at 3, 6, & 12 month intervals (at student's expense).

Revised 2/2004, 10/2018

Reviewed 11/2008, 3/10/2009, 11/2009, 3/2010, 11/2011, 3/2012, 2/2013, 10/2013, 3/2014, 10/2014, 3/2015, 10/2015, 1/2016, 8/2016, 3/2017, 3/2018, 11/2019

B. Blood/Body Fluid Exposure Report

UNA ANDERSON COLLEGE OF NURSING & HEALTH PROFESSIONS

Blood/Body Fluid Exposure Report

Student Name _____ **ID Number** _____

1. What type of body fluid was involved?

blood or blood products urine vomit

other, please describe: _____

2. Mode of exposure:

needle stick intact skin non intact skin eye(s) mouth nose human bite

other, please describe: _____

3. Was personal protective equipment (PPE) worn at the time of exposure? yes no

If yes, please specify: _____

4. What device or item caused the injury? _____

5. How long was the blood or body fluid in contact with the skin or mucus membrane?

less than 5 minutes 5-14 minutes 15 minutes or more

6. Estimate the quantity of blood or body fluid that came in contact with the skin or mucus membrane:

small amount (up to 5 mL) moderate amount (up to 50 mL) large amount (more than 50 mL)

SOURCE PATIENT:

1. Is the source patient known? Yes No

If yes, what is social and medical history of patient? _____

2. Is Hepatitis B Surface Ag status known on the patient? Yes No

If yes, what is status? _____

3. Is Hepatitis C Ab status known on the patient? Yes No

If yes, what is status? _____

4. Is HIV Ab status known on the patient? Yes No

If yes, what is status? _____

5. Are liver function tests available from prior to the exposure? Yes No

If yes, results? _____

C. Declination of HIV/Hepatitis Serology Testing

UNA ANDERSON COLLEGE OF NURSING & HEALTH PROFESSIONS

Declination of HIV/Hepatitis Serology Testing

Blood/Body Fluid Exposure Report

Student Name: _____

Student ID Number: _____

I understand that, due to the nursing occupational exposure, I may be at increased risk of acquiring HIV & Hepatitis. I have been given the opportunity to be tested at my expense for HIV & Hepatitis. After reviewing this information, I choose to decline the testing. I may change my mind and be tested later at my own expense. I understand that if the patient is a known source of HIV or Hepatitis, I have limited amount of time to take post-exposure medications. I have read and fully understand all the information on this declination form.

By signing below, I am freely declining testing for HIV and Hepatitis post exposure to blood and/or body fluids.

Student's Signature: _____

D. Influenza Vaccination Consent Form

UNA ANDERSON COLLEGE OF NURSING & HEALTH PROFESSIONS

Influenza Vaccination Consent Form

UNA Anderson College of Nursing & Health Professions recommends that students receive the influenza vaccination to protect the patients and themselves from the virus. A copy of this form is to be submitted to the Anderson College of Nursing & Health Professions after the dose is documented. Additionally, a copy is to be kept in the student's portfolio.

I have had the opportunity to read, ask questions and understand benefits and risks of the flu immunization. I agree to receive the dose required for the optimum immune response. However, as with all medical treatment, I understand there is no guarantee of immunization or the absence of adverse side effects from the vaccine.

Influenza Vaccination: Declination Form

I understand that, due to the nursing occupational exposure, I may be at increased risk of acquiring the flu virus. I have been given the opportunity to be vaccinated with the flu vaccine. I acknowledge that influenza vaccination is recommended by the CDC for all healthcare providers to prevent infection from the virus and transmission of influenza and its complications, including death, to patients, coworkers, family, and the community. I recognize that this disease kills thousands of people in the US each year and that I can shed the virus for 24 hours before influenza symptoms appear. I also understand that I cannot get influenza from the influenza vaccine and that the strains of virus that cause influenza infection change almost every year requiring yearly vaccinations. I understand that by declining this vaccine, I continue to be at risk of acquiring the flu and transmitting it to others. After reviewing this information, I choose to decline the vaccination. I may change my mind and accept the vaccination later, if vaccine is available. I have read and fully understand all the information on this declination form. I decline vaccination for the following reason(s). Please check all that apply:

- | | |
|--|--|
| <input type="checkbox"/> I believe I will get influenza if I get the vaccine. | <input type="checkbox"/> I do not like needles. |
| <input type="checkbox"/> My philosophical or religious beliefs prohibit vaccination. | <input type="checkbox"/> I do not wish to say why I decline. |
| <input type="checkbox"/> I have an allergy or medical contraindication to receiving the vaccine. | <input type="checkbox"/> Other reason – please tell us. |

Medical Reasons:

- ____ Allergic to Eggs/egg products
____ Transplant recipient
____ Immunosuppressive therapy

E. Tuberculosis Exposure Protocol

UNA ANDERSON COLLEGE OF NURSING & HEALTH PROFESSIONS

Tuberculosis Exposure Protocol

The following procedure is for students exposed to tuberculosis during a clinical experience. Students who are exposed to patients who subsequently are shown to have tuberculosis, should:

- 1.) Complete appropriate UNA (Appendix K) and clinical facility incident reports.
- 2.) Exposed students who have never had a positive tuberculin skin test will be given the PPD skin test **immediately** and then again in **10-12 weeks following the exposure**.
- 3.) If a PPD skin test is **positive**, the student will be referred to UNA University Health Services.
- 4.) A student, who has had a positive PPD in the past and is subsequently exposed to tuberculosis during a clinical experience, will be referred to UNA University Health Services.
- 5.) All students with positive PPD skin tests due to clinical tuberculosis exposure must submit a medical release from UNA University Health Services or his/her personal physician before returning to clinical.

F. Tuberculosis Screening Questionnaire

UNA ANDERSON COLLEGE OF NURSING & HEALTH PROFESSIONS

Tuberculosis Screening Questionnaire

Student Name: _____ Student ID # _____

This TB Screening Questionnaire is used to evaluate your current TB Status. We cannot utilize the tuberculin skin test because you have a positive reaction to the test. A positive skin test means that sometime during your life you came into contact with tuberculosis or have had a vaccination to prevent you from contracting tuberculosis. It does not necessarily mean that you have TB now. Instead, this health survey will assist with monitoring for possible TB Symptoms.

1. Do you have a cough that has lasted 2 weeks or longer? **YES or NO**
2. In the past 3 months have you:
 - A. Lost your appetite? **YES or NO**
 - B. Lost weight without dieting? **YES or NO**
 - C. Had fever, chills, or night sweats? **YES or NO**
 - D. Coughed up blood? **YES or NO**
 - E. Been feeling very tired? **YES or NO**

Note:

If the student answered “**YES**” to 2 or more of the above questions, please refer to the health department for follow-up.

If the student answered “**NO**” to all questions, sign as indicated below.

This screening will expire one year from the dated healthcare provider’s signature below.

G. Admission/Progression of Persons with Disabilities to the Undergraduate Program

UNA ANDERSON COLLEGE OF NURSING & HEALTH PROFESSIONS

Admission/Progression of Persons with Disabilities to the Undergraduate Program

Students with disabilities are considered for acceptance to the Undergraduate Program of the Anderson College of Nursing & Health Professions (ACONHP) on the basis of their ability to meet the objectives of the program and to perform required activities.

ACONHP ADA Awareness Statement

In accordance with the American with Disabilities Act (ADA) of 1990 and Section 504 of the Rehabilitation Act of 1973, the ACONHP endorses the university commitment to students with disabilities. ACONHP will provide reasonable accommodations for student with eligible documented learning, physical and/or psychological disabilities.

Nursing is a practice discipline with cognitive, sensory, affective, and psychomotor performance requirements. Qualified individuals are those who satisfy admission requirements and who can perform essential functions of a nursing program with or without reasonable accommodation or modification.

Students must satisfy the Essential Performance Standards of nursing students. A list of these standards is contained in the table below.

To be eligible for program accommodation, students must self-identify to the university's office of Disability Support Services (DSS), who will determine eligibility for services. Once eligibility for accommodations is determined by DSS, it is the students' responsibility to request appropriate accommodations. If Essential Performance Standards cannot be achieved by the student, either unassisted or with dependable use of assistive devices, in consultation with the faculty, the dean RESERVES the right to withdraw the student from the nursing program.

Essential Performance Standards		
Issue	Standard	Some Examples of Necessary Activities (not all-inclusive)
Critical Thinking	Critical thinking ability sufficient for clinical judgment	Identify cause/effect relationships in clinical situations, develop nursing care plans, ability to make safe judgments when planning and implementing all

		psychomotor nursing prescriptions, possess cognitive well-being
Interpersonal	Interpersonal abilities sufficient to interact with individuals, families, and groups from diverse backgrounds	Establish rapport with patients and colleagues; negotiate interpersonal conflict; respect differences in clients; respect the cultural diversity of clients and co-workers
Communication	Communication abilities (hearing, speaking, reading, and writing) sufficient for interaction with others in verbal and written form	Explain treatment procedures, initiate health teaching, document and interpret nursing actions and patient responses.
Issue	Standard	Some Examples of Necessary Activities (not all-inclusive)
Mobility	Physical abilities sufficient to move from room to room and maneuver in small spaces	Move around in patients' rooms, work spaces, and treatment areas; administer CPR, assist in ambulation, have sufficient mobility and stamina to function over an 8-12 hour period
Motor Skills	Gross and fine motor abilities sufficient to provide safe and effective nursing care	Calibrate and properly use equipment (blood pressure cuffs and syringes); position, lift, and transfer patients; ability to lift up to 50 pounds; obtain and process specimens; insert catheter; administer injections; use a computer; twist or squeeze with fingers; stand and maintain balance; reach and bend; move within confined spaces
Physical Strength and Endurance	Physical stamina sufficient to perform full range of required client care activities for entire length of work role	Sustain repetitive movements; maintain physical tolerance; lift; push and pull; support 25 pounds; move heavy objects weighing 10-50 pounds; defend self against combative client; carry equipment; use upper body strength
Emotional Stability	Able to assume responsibility and accountability for own actions	Establish therapeutic boundaries; provide client with emotional support; adapt to stress; deal with the unexpected; perform multiple responsibilities concurrently; handle strong emotion, control one's own emotions

Hearing	Auditory ability sufficient for observation and assessment necessary in nursing care	Hear verbal exchanges among health care personnel and patients, monitors alarms, emergency signals, auscultator sounds, cries for help; ability to hear in situations when not able to see lips of speaker; ability to hear sounds of a normal or faint volume level
Visual	Visual ability sufficient for observation and assessment necessary in nursing care	Able to read handwritten documents (chart data); able to see small calibrations on syringes; sphygmomanometer, thermometers; observe patient responses to interventions and/or health problems; ability to detect subtle color changes
Tactile	Tactile ability sufficient for physical assessment	Perform palpation; functions of physical examination and/or those related to therapeutic intervention, e.g., pulse, body parts, temperature of skin or fluids

NOTE: It is important for nursing students to have a realistic view of the demanding curriculum before deciding to pursue the degree. Students are encouraged to contact the Anderson College of Nursing & Health Professions if there are questions about his/her abilities to function in the clinical settings.

_____ I meet all Essential Performance Standards required by the Undergraduate Program of the University of North Alabama Anderson College of Nursing & Health Professions.

_____ I do not/_____ am not sure that I meet all Essential Performance Standards required by the Undergraduate Program of the University of North Alabama Anderson College of Nursing & Health Professions. I understand that I must meet with the Undergraduate Department Chair and the Anderson College of Nursing & Health Professions Dean to discuss/clarify concerns before I am allowed to progress in the Anderson College of Nursing & Health Professions.

In the space below, please identify which Essential Performance Standard(s) you do not meet.

All information I have provided is complete and accurate.

H. Alabama Board of Nursing Regulatory Questions for Initial NCLEX Exam Applicants

Alabama Board of Nursing Regulatory Questions for Initial NCLEX Exam Applicants

1.	Have you ever been arrested for, been charged with, been convicted of, entered a plea of guilty to, entered a plea of nolo contendere or no contest for, received deferred prosecution or adjudication for, had judgment withheld for, received pretrial diversion for, or pleaded not guilty by reason of insanity or mental defect to any crime other than a minor traffic violation in any state, territory, or country? A crime related to driving while impaired or while under the influence of any substance is not a "minor traffic violation."
2.	In the past five years, have you abused alcohol, drugs (whether legal or illegal, prescribed or unauthorized), and/or other chemical substances or received treatment or been recommended for treatment for dependency to alcohol, drugs (whether legal or illegal, prescribed or unauthorized), and/or other chemical substances?
3.	Have you ever been arrested or convicted for driving under the influence of drugs/alcohol?
4.	In the past five years, have you had, or do you now have, a physical or mental health problem that may impair your ability to provide safe nursing care?
5.	Has the licensing authority of any state, territory, or country denied, revoked, suspended, reprimanded, fined, accepted your surrender of, restricted, limited, placed on probation, or in any other way disciplined your nursing and/or any other occupational license, registration, certification, or approval?
6.	Is the Board of Nursing or other licensing authority of any state, territory, or country, including but not limited to the Alabama Board of Nursing, currently investigating you?
7.	Is public action pending against you with the Board of Nursing or other licensing authority of any state, territory, or country, including but not limited to the Alabama Board of Nursing?
8.	Have you ever been placed on a state and/or federal abuse registry?
9.	Has any branch of the armed services ever administratively discharged you with any characterization of service besides "Honorable" and/or court-martialed you?

Note: The same questions are required for each future renewal application for all nurses licensed by the Alabama Board of Nursing. RN licensure renewal is currently conducted every other year in the fall, prior to the December 31st deadline of the even year.

I. Dosage and Solution Calculation and Administration Guidelines

UNA ANDERSON COLLEGE OF NURSING & HEALTH PROFESSIONS

Dosage and Solution Calculation and Administration Guidelines

The Basics:

- Verify physician order per patient chart
- Check patient allergies
- Calculate patient weight in kilograms (if needed for determining safe dose)
- Determine the safe dosage range from an appropriate drug book/reference
- Calculate the conversion (for example: grams to milligrams; mg/kg/dose or mg/kg/day)
- Determine if the dose ordered is within a safe range
- Analysis: Can the dosage be administered as calculated? If drug cannot be administered as calculated then determine whether the drug can be or needs to be safely rounded
- Provide rationale for dosage administration decision
- Administer the drug following the rights of medication administration: Right Medication, Right Patient, Right Time, Right Route of Administration, Right Dose, Right Documentation
- Document thoroughly and provide medication education/instruction as needed
- All medications are administered by student nurses in the presence of a faculty clinical instructor or instructor designate

Rounding Rules:

- When the amount of drug to be administered is **less than 1 mL** the amount should be calculated to the thousandths and rounded back to the hundredths and administered in a 1 ml syringe.
- A 1 ml syringe is calibrated in hundredths of a milliliter with each one tenth milliliter labeled on the metric side.
Thus, it is recommended that all amounts **less than 0.5 ml** are measured in a 1 ml syringe.

If the ordered amount is calculated in tenths of a milliliter (and between 0.5-1ml) a 1ml or a 3 ml syringe may be safely utilized to administer this medication.

- Use caution when administering medications to infants, children, and elderly and debilitated clients. Caution is also necessary when administering Heparin, Lovenox (Enoxaparin), Insulin, Chemotherapeutic agents and other select drugs for any age client.

Practical Application:

Converting body weight for safe dosage calculation:

- Convert weight from pounds to kilograms. Compute the weight in kilograms to the thousandths (3 decimal places) and round back to hundredths (two places). For example: 150 lbs=68.181818 or 68.18 kg
- Verify safe dose from an appropriate drug book/reference/package insert
- Calculate the safe dose in mg/kg/dose (or per day) or mcg/kg/dose (or per day) for a patient of this weight.
- If the calculated dosage is not within safe range consult with the prescribing practitioner before administering the drug

Maximum Dosage Volume to be administered per intramuscular injection site:

- Average 150lb (68.18kg) adult= maximum volume 3ml
- Average 150lb (68.18kg) adult= maximum volume for deltoid site 2ml
- Children age 6 to 12 years= maximum volume 2ml
- Children birth to 5 years= maximum volume 1ml
- Adolescent 12 to 18 years= maximum volume 2.5ml

Remember to always look at the age, size, and condition of the patient. An infant does not have the muscle mass of an adult. Likewise, a frail and debilitated patient does not have the muscle mass of healthy adult patient.

The average volume of intramuscular and subcutaneous medications in adult patients is between 0.5ml-3ml. Volumes larger than 3 ml need to be questioned.

Rounding examples:

Dosage is 1.91 ml=use a 3 ml syringe and draw up 1.9 ml of medication
Dosage is 0.666 ml=use a 1 ml syringe and draw up 0.67 ml of medication
Dosage is 0.430 ml=use a 1 ml syringe and draw up 0.43 ml of medication
Dosage is 0.537 ml=use a 1 ml syringe and draw up 0.54 ml of medication
Dosage is 0.8ml IM= use a 1 or a 3 ml syringe and draw up 0.8 ml of medication

Remember to always treat calculations as dosage calculations for safe patient medication administration and not just a math problem. Analyze everything!

J. Emergency Management – Hostile Intruder

UNA ANDERSON COLLEGE OF NURSING & HEALTH PROFESSIONS

Emergency Management – Hostile Intruder

If an armed or threatening intruder comes on to the University of North Alabama property it is very important that faculty, staff and or students report it immediately and take protective actions. The University of North Alabama has an open campus in the middle of a city, creating unique challenges when dealing with this type of situation.

The University of North Alabama Police Department recommends the following procedures if you see an armed intruder and you are in an office or classroom:

- Remain in the classroom or office and immediately lock all doors.
- Call **911** and alert the Florence Police Department.
 - Try and remain calm so you can give an accurate description of the person or person(s). Note type of dress, height, weight, sex, and any other characteristics/physical items that are particular to the individual(s). Report the type of weapon (if known) and direction of travel or building entered.
- Call the University Police at 256.765.4357 (HELP) and report the **above information**.
- Lock the windows and close blinds or curtains.
- Turn off lights and all audio equipment.
- Stay out of the open areas and be as quiet as possible.
- Try to remain as calm as possible.
- Keep classroom or office secure until police arrive and give directions.

Additional Information is available on the University Police Website:

<http://www.una.edu/emergency-management/intruder.html>

“Send Police” Icon

A red rectangular banner with white text. On the left is a white cross icon. To its right, the words "EMERGENCY INFORMATION" are written in large, bold, white capital letters. Below this, in smaller white capital letters, is the text "FOR EMERGENCIES, DIAL (9-911) or (4357) ON ANY CAMPUS PHONE".

+ **EMERGENCY INFORMATION**

FOR EMERGENCIES, DIAL (9-911) or (4357) ON ANY CAMPUS PHONE

The “send police” icon on the computer desktop is in place to heighten safety in the classroom. Justification of clicking the “send police” icon is for emergency use only. Clicking the icon for non-emergency use is against the law and will be reported to the University Police.

M. COVID-19 Exposure Policy

ANDERSON
College of NURSING *and*
HEALTH PROFESSIONS
University of NORTH ALABAMA

COVID-19 Exposure Policy - Students

In the event of a known exposure to COVID-19 without appropriate PPE, students will do the following:

- Contact clinical course coordinator(s) and department chair immediately.
- Contact UNA Health Services for further health care guidance and screening.
- Self-quarantine for a minimum of 14 days post-exposure.
- If symptoms develop, report symptoms to UNA Health Services and obtain a COVID-19 test and report results to UNA Health Services.
 - If test is negative, complete the 14-days of quarantine and obtain release to return to class/clinical from UNA Health Services.
 - If test is positive, seek appropriate care from health care provider and notify UNA Health Services of positive results. The time frame required for clearance to return to class/clinical following diagnosed COVID-19 is individualized and must be obtained from UNA Health Services.
 - Additional requirements may apply based on assigned clinical facility.
- Students will maintain contact with each professor regarding their class and clinical progress throughout the quarantine period. Students may participate in classes virtually.
