# PROJECT IMPACT

**ANEW - ADVANCED NURSING EDUCATION WORKFORCE GRANT**

## ABOUT THE GRANT:

Project IMPACT: Improving Access, Care, and Treatment in the Rural South

Incoming nurse practitioner students who receive this grant will have a large portion of tuition paid along with additional smaller benefits, such as learning aids to prepare for the workforce. Along with a small stipend each academic year for the duration of their FNP education. Additionally, they will have an FNP review course paid for prior to taking their boards.

## PROGRAM GOALS:

- Increasing the number of nurse practitioner students who train for practice in rural and/or underserved areas
- Increase diversity in the healthcare workforce
- Build and support existing partnerships that will increase experiential learning opportunities in rural and/or underserved areas
- Students must choose/be placed with clinical preceptors in rural areas or underserved populations
- Additional requirements such as mentoring, monthly meetings with the program coordinator, tutoring if necessary, etc will apply

- **Application link provided to all students enrolled in NU640 and NU650 each Summer and Fall semesters.**
