# **UNAREC CUP**

Starting in the 2021 fall semester, UNARec will begin tracking points and rewarding participation for Registered Student Organizations. These points will be accumulated during fall & spring semesters with a champion being crowned at the end of the spring semester.

The purpose of the UNARec Cup is to cultivate friendly & healthy competition between RSO's as they strive to earn points while also encouraging widespread participation in intramural sports.

To register your organization for the Cup please use the following link: <u>UNARec Cup</u>
Registration

#### **Guidelines-**

### **Eligibility**

In order to compete in the Cup organizations must be considered in good standing with both UNARec and Student Engagement. Any off-campus events or events not directly put on by UNARec will not be considered for points.

#### **Awards**

At the conclusion of the spring semester, a champion will be crowned for both the UNARec Cup and the Greek Cup. The Rec Cup is open to all RSO's while the Greek cup is specifically for Greek organizations. Both physical cups will be kept in the Student Recreation Center lobby with a plaque identifying the champion(s) for the following school year.

#### **Teams/Qualifications**

All teams must have their represented organization's name as part of their team name for each sport. If the RSO's name is not obvious within the team name, intramural staff will need to be notified within the first week of the sport season.

Organizations can earn registration points for each team they sign up but points will only be awarded to their top two teams in major sports and their top four teams in minor sports.

For CoRec leagues only, one organization can partner with another organization (ex. A fraternity and sorority can create a team together) and both organizations can collect points. If

an RSO has multiple CoRec partnership teams they will receive registration points for each team but only their best team will collect standings & playoff points.
