GENERAL EDUCATION CORE

The General Education Program is fully compatible with the Alabama Articulation and General Studies Committee (AGSC) agreement, and UNA welcomes transfer students who have completed all or part of the General Education Program in other institutions whose courses are compatible with those at UNA. The University credits general education courses approved by the AGSC to the areas of the General Education Program for which they have received AGSC approval.

Individual academic programs at UNA may require specific courses in the General Education Core, and students should refer to **each major for specified course requirements for Areas I-IV.**
