How to Use the Three-Year Assessment Audit

The Three-Year Assessment Audit is an overview of information captured through the "Annual Planning & Assessment Report" (Annual Reporting) database which is a password-protected site. Each department/program at the University of North Alabama enters the information into the Annual Reporting database. The Office of Institutional Research, Planning, and Assessment (OIRPA) reviews each of these reports, codes the results, and enters the summary information into the Assessment Audit Report. This Audit Report reflects the last three years of data and allows the reviewer the ability to scan cursory information for each department and/or program or gain access to all of the information entered into the database during a given year for any department and/or program.

Although comprehensive, the report is straightforward. It is divided into academic years and color coded for ease in deciphering and interpreting the data. The first two columns consist of the name of the department as well the type of department. The legend at the top of the Assessment Audit in the color corresponding to this column indicates the definition for each code used. The columns under each year are defined as follows:

1. **# of Goals** – Each department must include departmental annual goals (not learning outcomes) for each year. This column indicates the actual number of goals a department has listed for the year.

2. **Use of Goal Results** – This column gives a synopsis of actions/improvements made based on the assessment of the annual goals. The legend at the top of the Assessment Audit Report in the corresponding color to this column indicates the definition for each code used.

3. **UNA Goals Supported** – In most cases, the departmental annual goals will support one or more of the University's five strategic goals. The legend at the top of the Assessment Audit Report in the color corresponding to this column indicates the definition for each code used. This column indicates which University goal/s the departmental goals support.

4. **Goal Report –** This column provides a link to each departmental goal that was created in the Annual Report for each of the 3 years. The reader will need to scroll down to read all of the goals listed by the department.

5. **# of SLOs** – Each academic department must include student learning outcomes for each academic program for each year. This column indicates the actual number of student learning outcomes a program has for a given year.

6. **Use of SLO Results** – This column gives a synopsis of changes made based on the assessment of the student learning outcomes. The legend at the top of the Assessment Audit Report in the corresponding color to this column indicates the definition for each code used.

7. **Core Comp. Supported** – In many cases, a program's student learning outcomes will support one or more of the University's five Core Competencies. The legend at the top of the Assessment Audit Report in the color corresponding to this column indicates the definition for each code used. This column indicates which University Core Competency/ies the program student learning outcomes support.

8. **SLO Report –** This column provides a link to each academic program's student learning outcomes that were created in the Annual Report for each of the 3 years. The reader will need to scroll down to read all of the goals listed by the program. Furthermore, SLO's for graduate programs are listed after the SLO's for undergraduate programs.
