What to Bring to the Test Center

- Admission ticket and photo ID (or any other required acceptable and valid identification). Your admission ticket is important because it contains the test center address and reporting time on test day. However, you are not required to present it at the test center to take the test. You will be permitted to test without the admission ticket. Please visit www.ets.org/praxis/test_day/id and carefully review the identification requirements. If you do not bring proper ID to the test center, you may not be permitted to test.

- If you are taking a computer-delivered test, please do NOT bring your own pencils or erasers. They will be supplied at the test center.

- If you are taking the Braille Proficiency Assessment (0633), bring three or four sharpened, soft lead (No. 2 or HB) pencils, an eraser, a manual braillerwriter and a traditional slate and stylus. These are not supplied at the test center. To get more information on the specific braillewriter, slate and stylus you must bring with you to the testing center, view the Study Companion, found at https://www.ets.org/s/praxis/pdf/0633.pdf. (PDF)

- A calculator if allowed for your test. Test taker-supplied calculators are not permitted for tests that offer on-screen calculators. For information on Calculator Use see www.ets.org/praxis/test_day/policies/calculators.

- If you are taking the Art: Content and Analysis (5135) test, you must sign in to your Praxis Account, at www.ets.org/mypraxis, upload four (4) digital images of your artwork in at least 2 different media, enter the required information, and print a copy of each image. **It is extremely important for test takers to bring the printout of all four digital reproductions of their work to the testing site.** The image ID number on the printouts is a critical part of the art-making responses. Test takers will be asked to enter this image ID number as the first line of their responses when taking the test. You must upload these images no later than 3 days before test day. For example, the deadline to upload images for a Saturday appointment is Wednesday at 11:59 p.m. ET. You will be unable to upload or edit images after the deadline.

No Personal Items

- You may be required to remove your eyeglasses for close visual inspection. The inspection will take a few seconds and will be done at check-in and upon return from breaks.

- Personal items other than ID documents are not allowed in the testing room. This includes any phones, tablets, PDAs, all watches, including digital, analog and smart watches, and any other electronic, recording, listening, scanning or photographic devices. If you are seen using or accessing any of these electronic devices and/or transmitting data, including but not limited to text messaging, email and photographs, your device may be inspected and/or confiscated. You may not access your phone during the test or during breaks to check messages or to check the time.

- Jewelry is prohibited, except for wedding and engagement rings. Do not wear other jewelry to the test center.

- Clothing and other personal items that include, but are not limited to, hair accessories, neckties, bowties, hats, scarves, jackets and outerwear are subject to inspection by the test center administrator. Refrain from wearing such items as tie clips, cuff links, ornate clips, combs, barrettes, headbands and other hair accessories on test day, as you may be prohibited from wearing them in the testing room.

- Before the test, you will receive instructions from test center staff regarding where to store personal items. You may also be asked to empty your pockets. You will not have access to your personal items during the test administration except for food, beverages and medication, which may be accessed during a break.

- If you fail to follow the instructions of the test center staff, you will not be permitted to test and your test fee will not be refunded. Any violation of these procedures during the test or during breaks may result in dismisal from the test center and/or cancellation of your test scores.

- Test centers and ETS assume no responsibility for personal items including watches, jewelry or devices that you choose to bring to the test center.
